Series 78, 79, 100 & 105 6 & 8-cylinder engines with 4.5L & 4.7L petrol and 4.2L diesel.

A very complete survey of different approaches adopted by Eastern and Western countries for the disposal of surplus ammunition. Incineration and other techniques for the disposal of high explosives, gun and rocket propellants are introduced and discussed in relation to environmental and safety requirements. Proposals for and examples of the re-use of military explosives in commercial applications are given. Topics discussed range from the conversion of energetic systems into chemical raw materials to the new development of energetic systems with special features for commercial use (such as producing artificial diamonds by detonation, self-propagating high-temperature synthesis, fire extinguishing, etc.).

For courses in Automotive Engines, Engine Rebuilding, Engine Machining and Engine Repair. This comprehensive textbook covers all aspects of engine repair including engine machining and sub systems such as ignition and fuel injection. The text is written to correlate to the content needed for the ASE Technician Certification test and the NATEF task list, and provides a major emphasis on diagnosis and why operations are performed. Tech Tips and Real World Fixes provide real world applications.

The first Land Cruiser appeared at about the same time as the Land-Rover. Styling changes occurred in 1952 with the modern range designated F25s and F28s. The FJ43 appeared in the mid-1960s, the 40 and 45 Series in Australia in 1967/8. The FJ55 was introduced in 1969, the 43 series continued to be made in Japan and the 40 and 45 Series had improvements made throughout the 1970s. Production of the FJ55 ceased in 1980 to be followed by the Series 60. This was only available with an in-line, six-cylinder engine of 3980cc. A generous five-seater, and good load carrier, there were few changes made to it after production commenced. This is a book of contemporary road & comparison tests, new model introductions, technical & specification data, driving impressions, of road tests, long-term reports, buying second hand. Models covered include:- FWD Pick-up, Station Wagon, LX, De Luxe, Diesel.

'Abby Ellin's writing is everything her fiancé pretended to be: witty, vulnerable, brave, smart, and honest.' - Michael Finkel, author of The Stranger in the Woods In Duped, New York Times journalist Abby Ellin explores the secret lives of compulsive liars, and the tragedy of those who trust them. Perfect for anybody who enjoyed Bad Blood and Dirty John. While leading a double life sounds like the stomping ground of psychopaths, moles, and covert agents with indeterminate dialects, plenty of people who appear 'normal' keep canyon-sized secrets from those in their immediate orbits. These untold stories lead to enormous surprises, often unpleasant ones. Duped is an investigation of compulsive liars - and how they fool their loved ones - drawing on Abby Ellin's personal experience. From the day Abby went on her first date with The Commander, she was caught up in a whirlwind. Within five months he'd proposed, and they'd moved in together. But there were red flags: strange stories of international espionage, involving Osama bin Laden and the Pentagon. Soon his stories began to unravel until she discovered, far later than she'd have liked, that he was a complete and utter fraud. When Ellin wrote about her experience in Psychology Today, the responses were unlike anything she'd experienced as a journalist. Legions of people wrote in with similar stories, of otherwise sharp-witted and self-aware people being taken in by ludicrous scams. Why was it so hard to spot these outlandish stories? Why were so many of the perpetrators male, and so many of the victims female? Was there something universal at play here? In Duped, New York Times journalist Abby Ellin explores the secret lives of compulsive liars, and the tragedy of those who trust them - who have experienced severe, prolonged betrayal - and the terrible impact on their sense of reality and their ability to trust ever again. Studying the art and science of lying, talking to victims who've had their worlds turned upside down, and writing with great openness about her own mistakes, she lays the phenomenon bare. Ellin offers us a shocking and intimate look not only at the damage that the duplicitous cause, but the painful reaction of a

society that is all too quick to blame the believer.
