2000 Cadillac DeVille Reviews by Owners

I have always had used vehicles; I have never had a brand new car. The newest car I have owned is my 2003 Cadillac DTS. It is basically a DeVille with all the options. It's a beautiful pearl white, and I got it for a pretty good deal (\$2,900.00). I financed it through the dealership, so I didn't have to get a loan from the bank.

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don ' t perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." – The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada ' s automotive "Dr. Phil" for over

40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.

A guide to buying a used car or minivan features information on the strengths and weaknesses of each model, a safety summary, recalls, warranties, and service tips.

For the first time in one volume, Phil Edmonston, Canada ' s automotive " Dr. Phil, " covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years.

The Cadillac story is more than the story of a car company. It is, in many ways, the story of the American automobile industry itself—which, as much as any industry, drove America ' s growth in the twentieth century and defined who we are as a people. For generations of Americans, Cadillac epitomized expansive prosperity. This illustrated history of Cadillac presents all the triumphs and failures of the marque ' s last sixty years; from the good times, through the disastrous 1980s, and up to the current reconstitution of the brand.

Traces the story of the American gun market as reflected by an Austrian six-cylinder revolver, tracing how it has become a weapon of choice on both sides of the law, in the entertainment industry, and among Second Amendment enthusiasts.
