Looking to get back into a quick waverunner after I sold my GP800 a few years back, and I found a clean 2000 model GP1200R. So here's the question: Do I want to consider this original power valves system ski or run away from it? I know many complain and have had huge repair bills due to the pin falling out or the connecting rod breaking.

Yamaha Gp1200 Boats for sale - SmartMarineGuide.com

Hi, Just did a compression test on my GP1200R, all 3 cylinders are down at 100psi. Ski runs fine but the compression is obviously down. Firstly what should the compression be, 120PSI or so I was guesing like the 800R. Secondly what is the most likely cause of the drop. Ski has 105hrs, is it likely to be worn rings. If it was worn rings would it be recommended to replace pistons and rings or ...

practicing lawyer.

All These Things I've Done, the first novel in the Birthright series, introduced us to timeless heroine Anya Balanchine, a plucky sixteen year old with the heart of a girl and the responsibilities of a grown woman. Now eighteen, life has been more bitter than sweet for Anya. She has lost her parents and her grandmother, and has spent the better part of her high school years in trouble with the law. Perhaps hardest of all, her decision to open a nightclub with her old nemesis Charles Delacroix has cost Anya her relationship with Win. Still, it is Anya's nature to soldier on. She puts the loss of Win behind her and focuses on her work. Against the odds, the nightclub becomes an enormous success, and Anya feels like she is on her way and that nothing will ever go wrong for her again. But after a terrible misjudgment leaves Anya fighting for her life, she is forced to reckon with her choices and to let people help her for the first time in her life. In the Age of Love and Chocolate is the story of growing up and learning what love really is. It showcases the best of Gabrielle Zevin's writing for young adults: the intricate characterization of *Memoirs of a Teenage Amnesiac* and the big-heartedness of *Elsewhere*. It will make you remember why you loved her writing in the first place.

New Mechanisms in Glucose Control presents a clear overview of the new drugs and treatment therapies that have been developed in recent years to help improve glycaemic management for the diabetic patient, namely the incretin mimetics (GLP-1 agonists) and DPP-4 inhibitors. It also considers other drug classes currently in development and undergoing clinical trials including the SGLT2 inhibitors and other pipeline products. In addition to pharmaceutical agents, the role of bariatric surgery as a management tool for diabetes is covered as well as consideration of the organisation of diabetes care with a community focus. This indispensable pocketbook details the newer treatments and offers a comparison with more traditional agents including sulphonylureas, glitazones and insulin. The pros and cons of traditional therapies are discussed as well as the epidemiology and pathogenesis of type 2 diabetes, helping to give the reader a better understanding of the disease area and its management. New Mechanisms in Glucose Control is essential reading for health professionals working in primary or secondary care and involved in treating diabetic patients.

Engine-tuning expert A. Graham Bell steers you through the various modifications that can be made to coax maximum useable power output and mechanical reliability from your two-stroke. Fully revised with the latest information on all areas of engine operation, from air and fuel, through carburation, ignition, cylinders, porting, reed and rotary valves, and exhaust systems to cooling and lubrication, dyno tuning and gearing.
