One of the most remarkable mechanized campaigns of recent years pitted the brutal and heavily armed jihadis of Islamic State against an improvised force belonging to the Kurdish YPG (later the SDF). of the technical. Before US air power was sent to Syria, these were the Kurds' most powerful and mobile weapons. Co-written by a British volunteer who fought with the Kurds and an academic expert on armoured warfare, this study explains how the Kurds built and used their AFVs in the war against 'Daesh', and identifies as far as possible which vehicles took part in major battles, such as Kobane, Manbij and Raqqa. With detailed new artwork depicting the Kurds' range of armour and many previously unpublished photos, this is an original and fascinating look at modern improvised mechanized warfare.

One element of the Army's transformation strategy is its recapitalization (RECAP)

To inform this program's decisionmaking, a two-part analysis was performed to assess the effects of aging on High-Mobility Multipurpose Wheeled Vehicles and to estimate the timing recommended for RECAP and replacement of these vehicles.

Includes more than 100 maps, plans and illustrations. “This monograph is more than the story of Marine expeditionary operations in Afghanistan. It describes who our nation’s enemies are; how America became involved in the Global War on Terrorism; and how the Marine Corps struggled to acquire a major role in Operation Enduring Freedom, as well as the actions of Marines and sailors who helped prosecute the air and ground
