Arlene is a little girl who loves to make things. She begins by making presents for her doll, Maggie. As she grows up, she moves on to creating gifts for her own children and grandchildren. This is a lovely story that is designed to help children see a different side of the elders in their lives and understand that they were once children, too. Here's what people are saying about Great-Grandma's Gifts: I loved it! A sweet book about a mother/grandmother/great-grandmother's love for her family and how she uses her talents to create loving memories to give to each generation. The

illustrations are especially enjoyable. Susan M. Toy, Reading Recommendations Great-Grandma's Gifts is exactly the kind of book that little girls will remember reading with their moms when they are older. It's cute and it's soft...but it's not 'just' cute and soft; there are deeper currents here involving family and love and generations and life itself. Get it, read it and then put it high enough on the shelf so that the kids can't rip it. You're going to want to hold onto this one for them. Paul Bachmeier, author of Barley the Elephant. It's a

personal story that really connects with people. Jones has a way of making her own experiences relate across the boards. Grandmothers everywhere should pick this up to read to their grandchildren. And keep on-hand as yet another gift to pass down. Scott E. Chasty A beautiful tribute to a creative mom with creative daughters....the aspect on aging is quite well done. Passed it on... Gayle Willoughby. This is a very sweet story about a girl who loved to sew that grew up to be a great-grandmother. The illustrations are gorgeous. I really like how some of the words reflect what is

being said (red is red, striped is striped, etc...). I really liked this because a lot of times kids don't think of adults as being children at one time! I teach early elementary and this will be a great addition to my classroom library. Jayna This is a sweet, lovely little book. The writing rolls off the tongue and I can see how easy it would be to read aloud to a child. Very nice. By timber9762 "timber9762" (Amazon reviewer.) Sweet generational story of grandma showing and passing on her love of pieces of fabric and sewing not just pieced quilts, but also

clothing and soft cuddly remembered toys. Simple drawings and colors for a toddler to point and name and recognize. Albuquerque (Amazon reviewer.) My daughter and I read this book together. My daughter will be going into grade two this fall and found it a great read for her. She read most of it on her own with some help from myself so it helped challenge her but also help with words she already knows. My daughter loved the pictures and she thought it was really neat that Grandma was busy making clothes, toys and beautiful quilts for her children and grand children. We both

enjoyed the font that were coloured different sizes. Some were also striped or polka dots. A great book to read with kids. I love that after all the years of making wonderful gifts that Grandma decided to take a rest at the lake! My daughter and I give this book 5 stars! Jennifer Levac, book blogger
