The perfect book for those looking to enter the world of motorcaravanning. Showing a selection of the types of motorhome available, this book covers everything from hot water and heating, sanitation, and power supplies, to personalising your motorhome, so you can get the motorhome that suits your needs, and your budget.

Haynes manuals are written specifically for the do-it-yourselfer, yet are complete enough to be used by professional mechanics. Since 1960 Haynes has produced manuals written from hands-on experience based on a vehicle teardown with hundreds of photos and illustrations, making Haynes the world leader in automotive repair information.

Professional technicians have relied on the Chilton Labor Guide estimated repair times for decades. This latest edition expands on that reliability by including technical hotline feedback and research from professional labor experts. The labor times reflect actual vehicle conditions found in the aftermarket, including rust, wear and grime. Available in both hardcover and CD-ROM, this completely revised manual provides thousands of labor times for 1981 through current year domestic and imported vehicles. All times reflect technicians' use of aftermarket tools and training.

Each Haynes Manual is based on a complete teardown and rebuild of the specific vehicle. Features hundreds of "hands-on" photographs taken of specific repair procedures in progress. Includes a full chapter on scheduled owner maintenance and devotes a full chapter to emissions systems. Wiring diagrams are featured throughout.
