Excerpt: The Ford Expedition is a full-size SUV built by the Ford Motor Company. Introduced in 1996 for the 1997 model year as a replacement to the Ford Bronco, it was previously slotted between the smaller Ford Explorer and the larger Ford Excursion, but as of the 2005 model year, it is Ford's largest and last truck-based, off-road and tow capable SUV. It has usually shared a platform and design with the Ford F-150 pickup truck. Ford currently offers the standard regular-sized model and the larger EL/Max model, succeeding the Excursion which was discontinued in 2005. It is the second Ford vehicle to use the Expedition name, as it was part of the Explorer Sport's trim models during the 1995 model year. All Expeditions were originally built in Wayne, Michigan. In 2009, Ford shifted its current third generation (2007-present) model production to Louisville, Kentucky when Ford converted the Wayne assembly plant to begin further production of the Focus. A fourth generation will arrive to dealers in 2014 or 2015. The Expedition offered up to nine passenger seating in model years before 2007 (with a front bench seat option); 2007-present offer 2 bucket seats in the first row. It is equipped with a V8 engine. It is similar to the Lincoln Navigator, especially for the 2007-present model in Limited or King Ranch high end trims; both of which were introduced for the 2005 model year. The story of the Sable Quill revolves around a young, African American boy from Baltimore, MD named Malik Mills, who has dyslexia and struggles academically and socially with his confidence. Malik is a budding athlete whose basketball skills are overshadowed by his anger and violent tendencies. His parents, school administrators, neighbors, and friends are at a lost to help Malik. Even a child psychologist who tested Malik and diagnosed his mood disorder and dyslexia was at a lost to help him. Through some majestic maneuvering, Malik wins a palm reading at the Universoul Circus and with it an onyx, diamond, and gold pen. This pen unbeknownst to Malik is magical. It provides Malik with advantages that he did not previously have. It sets up a collage of assists and opportunities for Malik not just to change, but to flourish and thrive. With the help of the Sable Quill, his parents, his potential love interest and tutor, Tameka Thomas; and his own hard work, determination, and dedication, Malik changes his life, becomes a better person and a better student, and passes the legacy of the Sable Quill on to future posterity.

This project contains a look into the manufacturing company of Ford Motor Company. Research was done about how the company runs business, both globally and domestically. In this report, the company's mission, goals, strategies, product and service portfolios, market share and profit performance, technology and employment information are outlined. Key successes and weakness failures are also discussed in detail. Information about Ford's use of computer systems and an information model for the company is also included. The information model displays Ford's Work System, showing which components of the Work Organization, Control System, Industrial Relations and Human Resources Practices Ford implements. The Business Organization, with Ford's Business Strategy and Enterprise Organization is also part of the model. At the end of the report, self-evaluations by team members and references can be found. Ford Motor Company is currently trying to increase its global market share in automobile sales while facing slumping market share numbers in the United States. This report examines the Ford company characteristics and how the company uses information systems in the business climate. To reduce costs and increase knowledge of a region Ford uses small ERP systems that are less expensive and faster to implement than the larger ERP systems. Failure to obtain a larger market share in foreign markets has hurt the company. The proper use of information systems by Ford will increase their ability to maintain a successful business in future years locally and globally.
