Packed with good advice on choosing the right Ducati bevel twin, with a comprehensive inspection guide and in-depth analysis of strengths and weaknesses, Ducati Bevel Twins covers desirable upgrades, modifications to avoid, valuation and predicting which models will become collectible (if they aren't already). Illustrated throughout with photos of key areas to check and foibles to be aware of, and featuring details ranging from the Ducati community, to whether a Ducati bevel twin will suit you and your lifestyle, this is the complete guide to choosing, assessing, and buying the Ducati bevel twin of your dreams. Written by Ian Falloon, an expert who enjoyed a close association with the factory and the engineers during the period these bikes were manufactured, providing him with an invaluable insight into their development. He has been involved with Ducati motorcycles, and bevel twins in particular, for nearly 40 years and, in addition to writing several books covering these models, he is an avid restorer with over 20 bevel twin restorations to his credit.

After saving Alfa Romeo from oblivion in 1987, it took Fiat nearly five years to debut the first new Alfa produced under its control. This is the story of how the competition versions of the 155/156/147 family of cars were developed and subsequently raced to many championship titles and race wins. Alfa Romeo's 155 saloon was a comprehensively successful racing touring car that won the German and world-wide DTM Championship, and later ITC races. The model also took on the role of representing the company in national touring car championships throughout the world, most notably winning the British Touring Car Championship in 1994. The 156 was Alfa's successor to the 155 and was also raced with much success. This book follows the development and competition history of this model too, along with its sibling, the 147. Together, these models kept the Alfa Romeo name at the pinnacle of motor sport for many years, from 1992 to 2006, and will become future motorsport classics.

A biography of motor racing mechanic Tony Robinson, who worked with some of the great names of the sport in the 1950s and '60s.

Now you can build your own dream campervan in just ten weeks – for less than \$1,250! This is the first book to give easy, step-by-step illustrated instructions for the amateur DIYer on a budget. Full of never before seen money- and time-saving ideas, including how to kit out your interior for free, and source your van for peanuts. The ideas in this book will work on any van.

Picking up where the first volume left off, this is a beautifully illustrated journey covering a period of ten years in motor sport. Moving year by year, this book is written from the perspective of a passionate motor sport enthusiast of the day. Features many previously unpublished photographs.

Having this book in your pocket is just like having a real marquee expert by your side. Benefit from the author's years of real ownership experience, learn how to spot a bad car quickly, and how to assess a promising one like a professional. Get the right car at the right price!
