This important and timely new text introduces and explains the key ideas of accounting for society, the historical development of corporate social responsibility, accountability and ethics and their importance to everyday life.

This engaging strategy text presents the accumulated knowledge of strategic management scholarship in a way that is very accessible to students. Highly respected authors Hill, Schilling, and Jones integrate cutting-edge research on topics including competitive advantage, corporate governance, diversification, strategic leadership, technology and innovation, and corporate social responsibility through both theory and case studies. Based on real-world practices and current thinking in the field, the 12th edition of STRATEGIC MANAGEMENT features an increased emphasis on the changing global economy and its role in strategic management, as well as thought-provoking opening and closing cases that highlight the concepts discussed in each chapter. The appendix walks students through the case analysis process, and explains key ratios that managers use to compare the performance of firms. This text is the key reference that should be on every strategic leader's bookshelf. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The book details sources of thermal energy, methods of capture, and applications. It describes the basics of thermal energy, including measuring thermal energy, laws of thermodynamics that govern its use and transformation, modes of thermal energy, conventional processes, devices and materials, and the methods by which it is transferred. It covers 8 sources of thermal energy: combustion, fusion (solar) fission (nuclear), geothermal, microwave, plasma, waste heat, and thermal energy storage. In each case, the methods of production and capture and its uses are described in detail. It also discusses novel processes and devices used to improve transfer and transformation processes.

Nautilus Award Winner, 2019--Silver in Parenting & Family A comprehensive resource for parents, therapists, caregivers, and educators, packed with lifelong strategies for Autism Spectrum Disorder (ASD) management and support Newly revised and updated, this user-friendly guide addresses autism identification, treatment, and prevention from pre-conception through adulthood. Outsmarting Autism describes more than 50 practical approaches with proven efficacy, including lifestyle modification, dietary considerations, and boosting the immune system. After health improves, focus turns to developing the sensory foundations for communication, social skills, and learning. Patricia Lemer's approach is grounded in research on multifactorial causes, or "Total Load Theory," which explains that developmental delays are caused not by one single factor, but by an overload of environmental stressors on genetically vulnerable individuals. Because every person with autism is unique, this book guides readers to the therapies that may be right for each individual, helping to make the difference between management and healing. New research on topics like stem cells, cannabis, and dentistry is now included.

Winner of the 2020 Canadian Counselling and Psychotherapy Association (CCPA) Counselling Book Award Enlightening and practical, Addictions Counseling Today invites students into the heart of addictive thinking, offering first-person accounts of what it is like to experience different addictions. The text covers the range of addictions from alcohol, drug abuse, and nicotine to various process addictions, including sex, internet, gaming, social media, and gambling. Also included are the various theories and models of addiction, with a unique chapter on the neuroscience of addiction. Focusing on the new DSM-V classifications for addiction with an emphasis on CACREP and treatment, this provocative, contemporary text is an essential reference for both students and practitioners wanting to gain a deeper understanding of those with addiction. Learn why teaching addictions is changing and how to adapt your course by watching Kevin G. Alderson's Ph.D. webinar entitled The Pandemic Addiction Volcano here. Online Resources Free PowerPoint® slides with video for instructors are available with this text. Test bank questions will be available in August 2020. Contact the author to learn more.

This textbook uses a case study approach to present a variety of cause-related marketing campaigns that have been developed by companies, and NGOs. These innovative case studies help students understand how such campaigns affect for-profit and non-profit organizations, customers, and society in general. This book also offers numerous useful examples to understand the theory of cause-related marketing and how it can be applied in different countries and cultural contexts. Lecturers will find the teaching notes provided with each case useful for the classroom.
