An encyclopedic view of doing business with Australia. Contains the how-to, where-to and who-with information needed to operate internationally.

Respected international experts such as Michael Bordo, Larry Sjaastad and Ken Clements are brought together in a wonderfully well researched new book on this most important of topics. This comprehensive, well-written book provides all you need to know about Gold and the Modern World Economy.

An updated edition of the best-selling handbook, this all-encompassing guide for jewellery entrepreneurs of all levels covers key lessons for setting up, running and growing a jewellery business. From the college graduate looking to set up a workshop, to the established maker ready to expand their business, Setting up a Successful Jewellery Business equips creative jewellers with the essential knowledge and tools to operate a professional jewellery business. Encouraging individuals to define their business objectives and strategy for the future, the guide deals with topics including: · presenting your brand; · protecting your designs; · how much to charge for your work; · selling to shops, galleries and individuals; · creating your website and driving traffic to it; · managing your time and finances plus other essential business skills. Updated with two new chapters, an expanded section on social media and a revised appendix, this is an indispensable jeweller's companion that provides the resources to take your business forward.

This book presents a radically innovative view on trade shows as knowledge-rich places, where firms learn through observation and interaction with other economic actors, and as enablers, rather than mere consequences, of globalization. It is organized in four parts. Part I lays out the conceptual foundations of the knowledge-based perspective, from the early development of trade fairs to modern-day events. Part II analyses specific global developments, focussingon the trade show ecologies of Europe, North America, and the Asia-Pacific region. Part III investigates differences in the nature of knowledge generation practices across international hub shows,exports shows, and import shows in different industries, and investigates competition between such events. Part IV discusses the implications of a knowledge-based conceptualisation of trade shows.

This book gives you all the information you need to buy, collect, sell or simply enjoy sapphires, emeralds, rubies and other coloured gemstones with confidence and knowledge. With more varieties than ever before to choose from, including altogether new gems, revolutionary new cuts and new ways to buy gems -- such as Internet auctions and TV shopping -- there has never been a more exciting time to buy or collect coloured gemstones. But there are also new high-tech treatments and sophisticated frauds to look out for. Lack of information, error or misrepresentation can make the thrill of buying a gem or piece of jewellery confusing, intimidating, overwhelming and costly. Buyers need a source of expert guidance. This practical, comprehensive, easy-to-understand guide provides all the information you need in order to know what to look for, and what to look out for, including: What qualifies as a "gemstone"?; How to evaluate colour -- and its impact on price; Deciding between a natural gem and an enhanced gem . . . and new glass-gemstone compositions; Coloured gemstone synthesis and treatment; What to get in writing; How to get what you want within your budget; Price guides for popular gems, opals and synthetic stones; Important information about buying on the Internet; What to ask when buying the stone . . . and much more! Written by an "insider", this easy-to-read guide is the "unofficial coloured gemstone bible" for anyone who wants to get the most for their money and enjoy what they have purchased.
