This book is intended to give readers detailed information and perspectives on the reform of financial management reform practices in a variety of national settings around the world. The chapters explore the reform agenda in each nation and factors that stimulated change. Each chapter addresses the extent of the influence of "New Public Management" concepts and practices on reform implementation. The nations whose experience is represented in this book are among the most often cited examples of progressive change to be examined and

perhaps emulated by governments in other nations. In the introductory chapter the editors address the question whether and to what extent the financial management reforms detailed in the book reveal real progress or a progression of questions and dilemmas faced but not solved over the past several decades.

Semplificazione dell'attività di regolamentazione delle imprese da parte della pubblica amministrazione.
Decentramento di funzioni e compiti delle amministrazioni pubbliche.

Il volume propone un'analisi della città di Roma su diverse dimensioni: economica, infrastrutturale, istituzionale, politica. La domanda a cui si cerca risposta è: perché Roma è stata colpita dalla Grande Recessione in misura superiore al resto d'Italia? Quattro piste di lavoro vengono suggerite. La prima fa riferimento ad alcuni punti di debolezza della struttura produttiva urbana. La seconda a un rilevante deficit infrastrutturale e al crollo degli investimenti pubblici dopo il 2008. La terza all'inefficienza delle istituzioni preposte alla governance locale. La quarta a una serie concatenata di errori da parte delle classi politiche locali che si sono avvicinate alla direzione della città, e una grave disattenzione da parte dei governi nazionali.
