A History of Europe by J.M. Roberts

About The Penguin History of Europe. Comprehensive in its scope and brilliantly readable, this is a superb follow-up to the author's bestselling Penguin History of the World. Beginning with prehistory and the early civilizations of the Aegean, The Penguin History of Europe traces the development of European identity in its many guises, through the age of Christendom, the Middle Ages, early Modern history and the old European order.

The Penguin History of Europe by J. M. Roberts ...

His History of Europe opens with a near empty canvas; he gives us a strong sense of Europe before the first human foot fell upon it. This opening conveys more than simple geographical and geological facts; it conveys a sense of how the terrain and climate would ultimately sustain life.

The Penguin History of Europe: Amazon.co.uk: J. M. Roberts ...

J. M. Roberts, author of a fine one-volume history of the world, offers a careful synthesis of European history from the Stone Age to the collapse of Communism in A History of Europe. His discussion is never very deep, as might be expected in a book that treats the whole of ancient Greek history in a mere 20 pages, but it is astonishingly broad.

A History of Europe: Roberts, J.M.: 9781859861783: Amazon ...

The history of Europe concerns itself with the discovery and collection, the study, organization and presentation and the interpretation of past events and affairs of the people of Europe since the beginning of written records. During the Neolithic era and the time of the Indo-European migrations, Europe saw human inflows from east and southeast and subsequent important cultural and material exchange.

History of Europe - Wikipedia

John Morris Roberts CBE, often known as J. M. Roberts, was a British historian with significant published works. From 1979 to 1985 he was vice chancellor of the University of Southampton, and from 1985 to 1994, Warden of Merton College, Oxford. He was also well known as the author and presenter of the BBC TV series The Triumph of the West, first broadcast in 1985.

John Roberts (historian) - Wikipedia

J. M. ROBERTS was a Fellow and Tutor of Oxford University, now retired. His numerous publications include Europe 1880-1945 and The Paris Commune from the Right. In 1985, BBC2 transmitted the series The Triumph of the West, which he wrote and presented.

The Penguin History of Europe: Roberts, J. M. ...

The European Union is a geo-political entity covering a large portion of the European continent. It is founded upon numerous treaties and has undergone expansions and secessions that have taken it from 6 member states to 27, a majority of the states in Europe.

History of the European Union - Wikipedia

Norman Davies specializes in the history of Eastern Europe, a fascinating region often absent in Anglocentric texts. In Vanished Kingdoms, he roams across the European continent to pick out states that don't exist on modern maps and are often missing in the popular consciousness: Burgundy for example. He's also a thrilling companion. 06

Covers thousands of years of politics, religion, economics, and culture, emphasizing events of the twentieth century

This text is a bestselling introduction to the period 1880-1945. Social, economic and cultural history are integrated within a firm poliitical framework.

This is a completely new and updated edition of J. M. Roberts and Odd Arne Westad's widely acclaimed, landmark bestseller The Penguin History of the World. For generations of readers The Penguin History of the World has been one of the great cultural experiences - the entire story of human endeavour laid out in all its grandeur and folly, drama and pain in a single authoritative book. Now, for the first time, it has been completely overhauled for its 6th edition - not just bringing it up to date, but revising it throughout in the light of new research and discoveries, such as the revolution in our understanding of many civilizations in the Ancient World. The closing sections of the book reflect what now seems to be the inexorable rise of Asia and the increasingly troubled situation in the West. About the authors: J.M. Roberts, CBE, published The Penguin History of the World in 1976 to immediate acclaim. His other major books include The Paris Commune from the Right, The Triumph of the West (which was also a successful television series), The Penguin History of Europe and The Penguin History of the Twentieth Century. He died in 2003. Odd Arne Westad, FBA, is Professor of International History at the London School of Economics. He has published fifteen books on modern and contemporary international history, among them The Global Cold War, which won the Bancroft Prize, and Decisive Encounters, a standard history of the Chinese civil war. He also served as general co-editor of the Cambridge History of the Cold War. Reviews 'A work of outstanding breadth of scholarship and penetrating judgements. There is nothing better of its kind' Jonathan Sumption, Sunday Telegraph 'A stupendous achievement' A.J.P. Taylor 'A brilliant book ... the most outstanding history of the world yet written' J.H. Plumb

This account of developments in the modern era begins with the European Renaissance, and traces developments across the centuries of empire, industrial innovation, revolutions and world wars, through to the emergence of a fast-changing, inter-connected and non-Eurocentric world beset with environmental concerns.

The first new edition since 1967 of this standard introductory textbook, this has been significantly rewritten and expanded, and fully revised. It deals with a crucial period of European history during which her economic and political domination of the world reached a climax and then crumbled. Social, economic and cultural aspects are integrated within a framework of political narrative, and the book aims to present major themes through sharp detail rather than abstract generalizations.

This influential book challenges one of the most pervasive and powerful beliefs of our time—that Europe rose to modernity and world dominance due to unique qualities of race, environment, culture, mind, or spirit, and that progress for the rest of the world resulted from the diffusion of European civilization. J. M. Blaut persuasively argues that this doctrine is not grounded in the facts of history and geography, but in the ideology of colonialism. Blaut traces the colonizer's model of the world from its 16th-century origins to its present form in theories of economic development, modernization, and new world order.

This dazzling overview of a turbulent century explores both dramatic events and underlying trends. Despite a terrible two-stage 'European civil war' and the traumatic rise and fall of communism, wealth has increased dramatically alongside a four-fold leap in population, women's lives have been transformed, America has assumed undisputed political and cultural leadership. The Penguin History of the Twentieth Century is powerful, international and definitive.
