violence pulsing under the surface. She explores characters navigating the edge, the limits of themselves and those around them: power dynamics in families, in relationships, the distance between their true and false selves. They want connection, but what they provoke is often closer to self-sabotage. What are the costs of one's choices? Of the moments when we act, or fail to act? These complexities are at the heart of *Daddy*, Emma Cline's sharp-eyed illumination of the contrary impulses that animate our inner lives.

My name is Ishiaku Ada Fatima, born on December 25, 1975, in Kaduna state, Lagos Nigeria. I grew with a man that I thought was my dad, not knowing he wasn't my dad. I was sexually abused before the age of seven 'til I was fourteen years old. How I almost killed myself, how I lived on alcohol, how my mother treated me so badly. Now I'm using my story to help victims like me, to help them break their silence by speaking out and also to let the world know what sexually abused girls go through mostly in Nigeria and also to let people know that victims should not be bullied. I believe my book will help victims speak out and also open the eyes of society to see what victims go through that way people can help them and not bully them. Mothers in Africa believed victims should keep quiet because they see this act as a taboo while the victims die in silence. This book is about saving the girl child by breaking the silence.

Oliver Watson's world suddenly dissolves around him when Sarah, his wife of eighteen years, returns to Harvard to get her master's degree. Oliver is left on his own, with three children and a freedom he never wanted and doesn't completely understand. His family's needs and demands suddenly consume his life. When Oliver's mother is diagnosed as having Alzheimer's disease and dies soon thereafter, Oliver's father's life is changed as well. Braver than his son with less of a future before him, George Watson, at seventy-two, quickly embraces new relationships and, eventually, a new life. The sudden changes come as a shock to both father and son. Ben, Oliver's oldest son, rejects his father and reaches outward, under the illusion that he is grown-up and can make it on his own. Melissa, the middle child, blames Oliver for her mother's desertion. And Sam, the "baby," is too shaken to deal with it at all. Now the only parent, Daddy must somehow cope this, his troubled family and explore a world of new responsibilities, new women, and new experiences. Each of the three men must start a new life: Oliver in New York and then in Los Angeles with his children; once he faces the biggest change in his life; his widowed father with the woman next door; and seventeen-year-old Ben with his girlfriend and baby. Nothing is as it was before... nothing is as they once thought it would be. But in the end, different is better... different is more... for each of them—and especially for "Daddy."
