A detailed textbook of English phonetics with comprehensive information about general phonetics which will make the reader s task of understanding English phonetics better. Plenty of examples are drawn from Indian languages to illustrate the points made.

This much improved revised edition of the book takes into account the needs of the student in the context of the present curricula followed in various universities and English language teaching institutes. This edition therefore devotes a new chapter to Assimilation, a section to Tones in relation to Attitudes, and highlights certain important aspects of pronunciation, such as rules of word accentuation.Starting with general phonetics, the book goes on to give a brief functional account of general phonology and then a selective and yet fairly exhaustive description of the phonetics and phonology of English. It also provides a number of conversational passages in phonetic script as well as in ordinary spelling for practice in reading aloud. What sets this text apart is its novelty of approach and lucidity of treatment. English pronunciation is followed as per the "Received Pronunciation of England". This text is specially designed for postgraduate students of English, undergraduate and postgraduate students of Linguistics, and for those undergoing secondary and tertiary level teachers' training programmes in English.

This workbook is a companion volume to A Textbook of English Phonetics for Indian Students. It contains exercises on all the concepts discussed in the textbook in order to check the students understanding of elementary General Phonetics and Phonetics and

American English Phonetics and Pronunciation Practice provides an accessible introduction to basic articulatory phonetics for students of American English. Built around an extensive collection of practice materials, this book teaches the pronunciation of modern standard American English to intermediate and advanced learners worldwide. This book: [] provides an up-to-date description of the pronunciation of modern American English; [] demonstrates the use of each English phoneme with a selection of high-frequency words, both alone and in context in sentences, idiomatic phrases and dialogues; [] provides examples and practice material on commonly confused sounds, including illustrative pronunciation diagrams; [] is supported by a companion website featuring complete audio recordings of practice material to check your pronunciation against; [] can be used not only for studying pronunciation in the classroom but also for independent practice. American English Phonetics and Pronunciation Practice is essential reading for any student studying this topic.

Companion website, featuring additional resources such as sound files, can be found here: http://www.blackwellpublishing.com/phonetics/ Providing a comprehensive overview of the four primary areas of phonetics, Phonetics: Transcription, Production, Acoustics, and Perception is an ideal guide to the complete study of speech and sound. An accessible but in-depth introductory textbook on the basic concepts of phonetics Covers all four areas of phonetics: transcription, production, acoustics, and perception Offers uniquely thorough coverage of related relevant areas, including vocal fold vibration and the working of the ear, creating an engagingly flexible work for instructors Includes chapter-by-chapter exercises, enabling students to put their knowledge into practice Written in a clear and concise style by two of the field's leading scholars

Do you have a fear of transcription? Are you daunted by the prospect of learning and handling unfamiliar symbols? This workbook is for students who are new to linguistics and phonetics, and offers a didactic approach to the study and transcription of the words, rhythm and intonation of English. It can be used independently or in class and covers all the pronunciation details of words, phrases, rhythm and intonation. Progress is deliberately gentle with plenty of explanations, examples and 'can't go wrong' exercises. In addition, there is an associated website with audio recordings of authentic speech, which provide back-up throughout. The audio clips also introduce students to variations in accents, with eleven different speakers. Going beyond the transcription of words, the book also ventures into real discourse with the simplification systems of colloquial English speech, rhythm and intonation.

Comprehensive textbook on phonetics, with examples from over 500 languages.

Phonetics: A Contemporary Approach introduces students to linguistic phonetics and teaches the skills necessary for clinical application. Centered on a strong foundation of hands-on experience, this dynamic text is designed to help instructors provide their students with the most current topics and theories related to phonetics and phonetic transcription. Students will utilize theories and principles by creating their own Articulation Test, giving them an opportunity to apply what they've learned. With fun and engaging learning tools including challenging word puzzles, riddles, transcription exercises, fill-in-the-blank questions, and anagrams, Phonetics: A Contemporary Approach provides students and instructors with a wealth of unique resources for learning and teaching. TOPICS International Phonetic Alphabet and its clinical applications Sound/symbol association used to describe each of the American English speech sounds and their characteristics Information regarding the English Language History of United States English spelling and pronunciation Information and discussion of the speech and hearing mechanisms A comprehensive study of the American English vowels, diphongs, and consonants, including extensive transcription drill exercises A discussion of the clinical applications of the concepts of phonetic science. INSTRUCTOR RESOURCES Test Bank STUDENT RESOURCES Sound/Symbol Reference Chart Word Puzzles Fill-in-the-blank questions Transcription Exercises Anagrams Companion Website with an Interactive Glossary featuring phonetic symbols and audio, Matching Exercises, and Flashcards http://healthprofessions.jpub.com/thorum Please note: Some electronic versions and eBooks do not contain an access code to the Companion Website.

Las características más importantes de esta obra son:... Ejemplificación de muchas variedades lingüísticas, aparte del español y el catalán... Ejercicios variados al final de cada capítulo... Múltiples ejercicios de transcripción fonética... Comparación de los sistemas fonológicos inglés, español y catalán... Glosario de términos técnicos inglés-castellano... Apéndice en que se compara el inglés británico con el inglés americano... CD con grabaciones de listas léxicas y frases completas que ilustran la pronunciación, acentuación y entonación.
