personnel has been hand-selected and trained on state-of-the-art equipment to engineer complex and sophisticated components. While other precision engineering manufacturers try to stay ahead of the curve, we continue to define it.

### Acero Precision - Driven To Perfection

El término acero procede del latín « aciarius », y este de la palabra « acies », que es como se denomina en esta lengua el filo de un arma blanca. « Aciarius » sería, por tanto, el metal adecuado, por su dureza y resistencia, para ponerlo en la parte cortante de las armas y las herramientas.

Remarkable progress is being made in spoken language processing, but many powerful techniques have remained hidden in conference proceedings and academic papers, inaccessible to most practitioners. In this book, the leaders of the Speech Technology Group at Microsoft Research share these advances --

## Get Free Acero

presenting not just the latest theory, but practical techniques for building commercially viable products. KEY TOPICS: Spoken Language Processing draws upon the latest advances and techniques from multiple fields: acoustics, phonology, phonetics, linguistics, semantics, pragmatics, computer science, electrical engineering, mathematics, syntax, psychology, and beyond. The book begins by presenting essential background on speech production and perception, probability and information theory, and pattern recognition. The authors demonstrate how to extract useful information from the speech signal; then present a variety of contemporary speech recognition techniques, including hidden Markov models, acoustic and language modeling, and techniques for

## Get Free Acero

improving resistance to environmental noise. Coverage includes decoders, search algorithms, large vocabulary speech recognition techniques, text-to-speech, spoken language dialog management, user interfaces, and interaction with non-speech interface modalities. The authors also present detailed case studies based on Microsoft's advanced prototypes, including the Whisper speech recognizer, Whistler text-to-speech system, and MiPad handheld computer. MARKET: For anyone involved with planning, designing, building, or purchasing spoken language technology.
