She carries more than elemental powers. In 'Air', the sequel to 'Water' of the Akasha Series, Kaitlyn has a secret. One she won't be able to hide much longer. As the strongest Gaia the planet has ever seen, she must face mankind's greatest enemy as he campaigns for 'One Less: Depopulation'. Everything depends on Kaitlyn fully embracing her role as Gaia. Her family. The Seven. The Earth. Something has to give, and it won't be Kaitlyn.

The first volume in the Homecoming saga from bestselling author Orson Scott Card, The Memory of Earth High above the planet Harmony, the Oversoul watches. Its task, programmed so many millennia ago, is to guard the human settlement on this planet--to protect this fragile remnant of Earth from all threats. To protect them, most of all, from themselves. The Oversoul has done its job well. There is no war on Harmony. There are no weapons of mass destruction. There is no technology that could lead to weapons of war. By control of the data banks, and subtle interference in the very thoughts of the people, the artificial intelligence has fulfilled its mission. But now there is a problem. In orbit, the Oversoul realizes that it has lost access to some of its memory banks, and some of its power systems are

failing. And on the planet, men are beginning to think about power, wealth, and conquest. Homecoming series The Memory of Earth The Call of Earth The Ships of Earth Earthfall Earthborn At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

When powerful earth sorcerers forsook their vows to harness the earth not with magic, but with science, their brethren struck them down and hunted them to the last. Or so they thought... Now, five hundred years later, one person seeks to carry on the work of those first early thinkers by making the parts of their greatest creation whole again. Aaron and Shanna fall victim to these ambitions when their home is leveled by a surprise elemental attack. In the ensuing chaos, the two are separated. For Shanna, hardship soon turns to fortune, as she finds herself embarking upon the greatest adventure of her life. Only the worst of nightmares awaits Aaron. Hunted at every turn, the only thing keeping him alive is his own resourcefulness and an eslar mercenary whose reputation as a killer might make him the worst threat of all. Though Aaron and Shanna travel different paths, their purpose is joined when they individually learn of the mysterious Fifth Element. Shanna sees it as the final piece in the puzzle that is her destiny. To Aaron's logical mind, it is an impossible ambiguity. Whatever the answer, the Fifth Element draws them back together and into a final confrontation that will mean the end of everything unless they succeed.

"The unlikeliest of champions, the 1949-50 City College Beavers were extraordinary by every measure: City College was a tuition-free, merit-based college in Harlem known for its intellectual achievements and political radicalism rather than its athletic prowess. Only two years after Jackie Robinson broke the major league baseball color barrier (and the NBA was still segregated), every single member of the Beavers was either Jewish or African American. Yet this scrappy, come-from-nowhere team thrived in the highly competitive era when college basketball fans dwarfed the numbers that followed the professional teams. Then, less than a year after winning both the NIT and NCAA basketball tournaments in the same season--still the only team to ever have done so--the team's starting five were arrested. Charged with colluding with gamblers to shave points, these celebrated young men became symbols of disillusionment and corruption. Their dramatic story is set against the larger backdrop of post-war New York when gangsters controlled the city's illegal sports gambling, the police were on their payroll, and everyone was getting rich--except the young men actually playing the games. Yet they were the ones who took the fall when the party finally ended"--

Elemental magic is a weapon of power, on both sides of the war. The Seven has another leader, Kaitlyn is a new mother, and everyone is busy building their armies. During one battle, the secret to Akasha is discovered, and the race to master it is on. With all eyes on the prize, what matters most gets left behind. It is up to Kaitlyn to preserve the planet in the wake of the pure destructive power of Akasha, and the humans who wield it.

This action-packed first book of a middle grade fantasy trilogy brings together magical animals, environmental destruction, and finding one's place in a world where everything is about to change. Centuries ago, the world, Terra, was nearly destroyed by humans. As she recovered, Terra created the Guardians &— a group sworn to protect her. But humans have returned to their plundering ways and Terra needs the Guardians. She calls on them only to find they have fractured &— their last leader murdered years before. They need a new leader &— a new Terra Protectorum &— but when a young girl is chosen, outrage ensues. Questions demand answers. Why has Terra selected a girl with no knowledge of the Guardians? Why has she chosen a human when it is the humans destroying the earth? And most importantly, why has she chosen the girl whose father murdered the last Terra Protectorum? "Filled with pulse-pounding action, otherworldly characters to root for, and a timely message about the state of our planet, *The Rise of Winter* soars."—Joel A. What could possibly keep Lewis Tiggie from enjoying his twelfth birthday and the last day of school before summer vacation? Having his sister, Lallie, under foot might spoil his special day. But what he doesn't know is that together with Lallie, their precocious cat, and a friendly mouse, they'll all be sucked into a watery hole in the wake of a very strange storm that strikes their seaside village of Mousehole, England. A terrifying voyage through the depths of the ocean takes them to a mysterious place called Pood: a hostile, threatening land filled with secrecy and oddities. When they learn that three Topland children are being held captive in Pood, a race begins to rescue them and find a way home. But finding a way out is not so easy when you're trapped under the sea in a place that brings things in, but never lets them out.

A look inside the often hidden world of parasites turns the clock back to the beginning of life on Earth to answer key questions about these highly evolved and resilient life forms.

Two separate worlds; the Undine of The Deep and the Wolves of The Dry. A history muddled in war but thick with family bonds blur the lines of right and wrong. The youngest members of each race unite, trying to steer their people away from the brink of disaster. Serena and Liam must work together to resolve the problems of their people before the pressure tears these twin siblings apart. But the betrayed are angry, and are out for revenge.
