Rickard Rebellino, S. R. Toliver, Jason Vanfosson, Sarah E. Whitney, and Casey Alane Wilson While critical and popular attention afforded to twenty-first-century young adult literature has exponentially increased in recent years, classroom materials and scholarship have remained static in focus and slight in scope. Twilight, The Hunger Games, The Fault in Our Stars, and The Hate U Give overwhelm conversations among scholars and critics—but these are far from the only texts in need of analysis. Beyond the Blockbusters: Themes and Trends in Contemporary Young Adult Fiction offers a necessary remedy to this limiting perspective, bringing together essays about the many subgenres, themes, and character types that have until now been overlooked. The collection tackles a diverse range of topics—modern updates to the marriage plot; fairy tale retellings in dystopian settings; stories of extrajudicial police killings and racial justice. The approaches are united, though, by a commitment to exploring the large-scale generic and theoretical structures at work in each set of texts. As a collection, Beyond the Blockbusters is an exciting entryway into a field that continues to grow and change even as its works captivate massive audiences. It will prove a crucial addition to the library of any scholar or instructor of young adult literature.

Can a company achieve profitable growth, work toward the betterment of society, and offer educational opportunities that bridge the socioeconomic divide? Absolutely. And Advanced Network and Services (ANS) CEO Allan Weis explains how in this unique, inspirational story. An Internet pioneer, Weis describes the unusual business model that enabled ANS to create the backbone of the Internet—the same business model he and similar visionaries have used to help low-income youth find high-tech jobs and give inner-city achievers powerful opportunities. The Business of Changing Lives will help you balance your socially conscious desire to make a lasting impact on society with smart corporate management. By applying engineering acumen and social consciousness, Weis was able to lead his company to design and operate in record time the largest and fastest part of the Internet; sponsor an educational Olympics on the World Wide Web to introduce a new generation to the magic of computers, online learning, and the collaborative power of networking; close the digital divide between the technologically privileged and the technologically destitute. With compelling, insightful, and inspirational stories, this book offers inspiration and guidance to help you make the world a better place and your business a stronger organization.

In a novel as riveting, irresistible, and heartbreaking as Into Thin Air, teen climbing prodigies Rose and Tate attempt to summit—and survive—Mount Everest. Rose Keller and Tate Russo have been climbing for years, training in harsh weather and traveling all over the world. The goal that kept them going?

Summiting Mount Everest, the highest point on earth. Accompanied by Tate's dad, the two will finally make the ultimate climb at the end of their senior year. But neither Rose nor Tate are fully in the game--not only is there a simmering romance between them, but Rose can't get her mind off her mother's illness, while Tate constantly fails to live up to his ambitious father's standards. Everyone on their expedition has something to prove, it seems. And not everyone is making the best decisions while short on oxygen and exhausted, body and mind. The farther up the mountain they go, the more their climbing plans unravel and the more isolated each team member becomes. Rose and Tate will have to dig deep within themselves to determine what--or who--they value above all else.

Four girls. One summer. And a pact to do the impossible. Skyler, Ellie, Scarlett, and Amelia Grace are forced to spend the summer at the lake house where their moms became best friends. One can't wait. One would rather gnaw off her own arm than hang out with a bunch of strangers just so their moms can drink too much wine and sing Journey at two o'clock in the morning. Two are sisters. Three are currently feuding with their mothers. One is hiding how bad her joint pain has gotten. All of them are hiding something. One falls in love with a boy she thought she despised. One almost sets her crush on fire with a flaming marshmallow. One has a crush that could change everything. None of them are the same at the end of the summer.

Told from the split viewpoints of Liv and Jory, Kate A. Boorman's *What We Buried* is a psychological thrill ride that deftly explores how memories can lie, how time can bend, and how reconciling the truth can be a matter of life or death. "Do you ever just want to be believed?" Siblings Liv and Jory Brewer have grown up resenting each another. Liv--former pageant queen and reality TV star--was groomed for a life in the spotlight, while her older brother, Jory, born with a partial facial paralysis, was left in the shadows. The only thing they have in common is contempt for their parents. Now Liv is suing her mom and dad for emancipation, and Jory views the whole thing as yet another attention-getting spectacle. But on the day of the hearing, their parents mysteriously vanish, and the siblings are forced to work together. Liv feels certain she knows where they are and suspects that Jory knows more than he's telling...which is true. What starts as a simple overnight road trip soon takes a turn for the dangerous and surreal. And as the duo speeds through the deserts of Nevada, brother and sister will unearth deep family secrets that force them to relive their pasts as they try to retain a grip on the present.

This book introduces a groundbreaking teaching method intended to help English, social studies, and humanities teachers address difficult or controversial topics in their secondary classrooms. Because these issues are rarely addressed in teacher preparation programs, few teachers feel confident facilitating conversations around culturally and politically sensitive issues in ways that honor their diverse students' voices and lead to critical, transformative thinking. The author describes a four-step method to help teachers structure discussions and written assignments while concurrently assisting them in addressing Common Core State Standards. Designed to aid students in both developing their own viewpoints on contentious issues and in actively critiquing those of their teachers and peers, these practices will enhance any humanities curriculum.
