Lola was never any good at math. Just thinking about it makes her head hurt: Two arms, two legs, ten fingers, ten toes. One brain, eight alter egos. Sometimes, the numbers just don't add up. Of course, it doesn't help that an unknown factor has been added to the equation - a new alter who insists he has all the answers. But maybe he does. At least he mixes the equation up... After more than thirty years in a mental hospital, dissociative identity disorder patient Lola Murray thought she'd finally silenced the voices. But after her mother's death, Lola finds herself right back where she started, plus one. As she lays dormant in a mental hospital, her eight alter egos must decide-once and for all-to merge or let Lola go forever. What does it take to get a control freak, a know-it-all, a recluse, comedian, dreamer, protector, techy, and child to agree? It's really a matter of how you, they, or "we" see the bigger equation. Is it possible for nine to become one? Nine lives. One body. Will a merge finally set them free?

Two arms, two legs, ten fingers, ten toes. One brain, seven alter egos and one host. Sometimes, the numbers just don't add up. After more than thirty years in a mental hospital, dissociative identity disorder patient Lola Murray thought she'd finally silenced the voices. But it doesn't take long for Lola to realize her alters are back. This time, they refuse to be silenced. After months of lying dormant, Lola's seven alters are determined to be heard by the world. Will Lola be strong enough to reclaim her life? Or, will she once again allow her alters to take charge?

Meet Lola Murray-and the seven other personalities who live in her head... A patient at the Rosewood Hospital for Mental Wellness, Lola struggles to cope with Dissociative Identity Disorder-or as she calls the many egos, alters. Their names are Maria, Tim, Clare, Zoe, Frog, Rabbit, and Samantha-all ranging in age, gender, and with wildly different personalities. But with five women and two men battling to live their lives through Lola, it's only a matter of

time before someone wins... Therapy sessions threaten the survival of the group... With the help of Lola's therapist, she's able to better understand the many personalities living in her head. They are like life-long friends, and their presence is all Lola has ever known. Without them, she'd be in this big world all by herself, and that is even more paralyzing than the alternative her doctor has suggested-merge all seven personalities into one, dominant Lola. Fifty-one years is long enough... With release from the hospital coming up fast, Lola's alters scramble to prevent being erased. But after fifty-one years of hosting their lives while struggling for her own-when will it be her turn to live? Lola has to consider life outside of the institution. Friends, a job, and maybe even romance-how will she function with so many people making choices for her? As her first act of independence, Lola must decide. Will she live the rest of her life as herself, or as Lola, party of eight? ***Lola is the full trilogy of the 'Lola, Party of Eight' series by Erin Lee***

Be wary who you give your heart to. They may steal your soul. ***This book can be read as a standalone*** Soul Less is the full length novel based on Erin Lee's popular horror shorts including Praying Mantis. Readers are calling it one that will "haunt my nightmares" and "scary as heck." The seventeenth book in a twenty-author, multi genre series, Soul Less is sure to leave you with hairs standing on the back of your neck and wondering if people are really who they say they are.

"Have you ever been in the mood for ice cream? Like really in the mood? You can't explain why that craving comes on. You can't control it, even if you wanted to. You can't sleep, even at two in the morning, until you get it. So you put on your sneakers . . . Killing is like that for me. Fear is ice cream. Terror is the jimmies on top. Tonight, I'm in the mood for mint chocolate chip with hot fudge. Care to join me? (You could be the cherry on top)."

Two hundred-plus pages of spare poetic words, straight from between the couch cushions - because, sometimes, you just have to dig for words. Words I chew on curling my tongue around them. Tart and sweet at once as I search for the perfect dash - smelling of Spring and the potential in manure. They dance in my nose, causing me to ask myself: What is it that you're craving? (A fried bologna sandwich). I am transfixed by the twists in their form. Some long and awkward, others short and to the point. A drop out poet might call them "right on." Ink stains the page in familiar patterns and I remember back to the time before I could read them. Where they were like great mysteries. Finding joy in encoding them like crosswords I play with now on Sundays with green tea, blueberries, and Life cereal. (We serve pulpy citrus juice and kisses at exactly 11 a.m.) It's then that I wonder, how did I ever live without them? They wake me in the heart of night, begging as I reach for my glasses and purple pen. Rain checking them into the page. "I can hear you. Yes, I will look you up. Yes. I will call back Monday" when the kids are off to school and the house is still. To do. To do. I finger them, chasing their strong lines and whimsy, blissful. (Never one afraid to stare out a window daydreaming). They are fuzzy and warm. They understand, agree, like childhood friends living parallel lives and hopelessly waiting for Mondays where they'll play with words... ***ALL PROCEEDS FROM THIS BOOK GO TO

Don't tell me I'm not as American as you. Where we plant our roots: It's in the soil where we are defined, not the store from where we purchase seed. We aren't the fragile paper packages we pour spores into tired, dirty palms for planting from. We are the imperfect hopes and dreams that come only after the watering - musings of possibility. It's no different than motherhood, really. Because the truth is, no matter how a child was conceived, once we've set our minds to the nurturing, our hopes become our definition. We become what we desire the future to be. That was, and even still is, me. I refuse to give up, you see. In spite of everything. ***WHITE ANTELOPE IS THE NOVELLA-LENGTH FICTIONAL STORY OF A MUSLIM AMERICAN WOMAN FACED WITH BIGOTRY IN THE AFTERMATH OF 911 AS SHE STRUGGLES MAKE SENSE OF THINGS AND FIX HER OWN LOSSES AND GRIEF.***
