Angels, Denis Johnson's 1983 début novel, begins as a small book about not very much and ends as a small book about pretty much everything. Johnson has a keen eye and keener ear for the kinds of marginal characters many of us would rather overlook all together, people who live and sweat and suffer in the most wretched, unglamorous, and anti-heroic vistas of a decayed America.

ANGELS by Denis Johnson·RELEASE DATE: Sept. 27, 1983 From the very opening pages, it's obvious that poet Johnson's debut novel is uncommonly rendered--in language of expressionistic distortion (just yet punishing) reminiscent of a Goya etching; it's also obvious that this fiction--in its unswerving ugliness--won't be easy to take.

Craig Suder, third baseman for the Seattle Mariners, is in a terrible slump. He's batting below .200 at the plate, and even worse in bed with his wife; and he secretly fears he's inherited his mother's insanity. Ordered to take a midseason rest, Suder instead takes his record of Charlie Parker's "Ornithology," his record player, and his new saxophone and flees, negotiating his way through madcap adventures and flashbacks to childhood ("If you folks believed more strongly in God, maybe you wouldn't be colored"). A New York Times Notable Book for 2011 One of The Economist's 2011 Books of the Year One of NPR's 10 Best Novels of 2011 Denis Johnson's *Train Dreams* is an epic in miniature, one of his most evocative and poignant fictions. Robert Grainer is a day laborer in the American West at the start of the twentieth century—an ordinary man in extraordinary times. Buffeted by the loss of his family, Grainer struggles to make sense of this strange new world. As his story unfolds, we witness both his shocking personal defeats and the radical changes that transform America in his lifetime. Suffused with the history and landscapes of the American West—its otherworldly flora and fauna, its rugged loggers and bridge builders—the new novella by the National Book Award-winning author of *Tree of Smoke* captures the disappearance of a distinctly American way of life.

Eleven stories narrated by a young recovering alcoholic, whose dependency has led him to crime, cruelty, and loss in the Midwest, depict the disparity of emotions that constitute the American experience.

Denis Johnson's New York Times bestseller, *The Laughing Monsters*, is a high-suspense tale of kaleidoscoping loyalties in the post-9/11 world that shows one of our great novelists at the top of his game. Roland Nair calls himself Scandinavian but travels on a U.S. passport. After ten years' absence, he returns to Freetown, Sierra Leone, to reunite with his friend Michael Adriko. They once made a lot of money here during the country's civil war, and, curious to see whether good luck will strike twice in the same place, Nair has allowed himself to be drawn back to a region he considers hopeless. Adriko is an African who styles himself a soldier of fortune and who claims to have served, at various times, the Ghanaian army, the Kuwaiti Emiri Guard, and the American Green Berets. He's probably broke now, but he remains, at thirty-six, as stirred by his own doubtful schemes as he was a decade ago. Although Nair believes some kind of money-making plan lies at the back of it all, Adriko's stated reason for inviting his friend to Freetown is for Nair to meet Adriko's fiancée, a grad student from Colorado named Davidia. Together the three set out to visit Adriko's clan in the Uganda-Congo borderland—but each of these travelers is keeping secrets from the others. Their journey through a land abandoned by the future leads Nair, Adriko, and Davidia to meet themselves not in a new light, but rather in a new darkness.

A contemporary noir, *Already Dead* is the tangled story of Nelson Fairchild Jr., disenfranchised scion to a northern California land fortune. A relentless failure, Nelson has botched nearly every scheme he's attempted to pull off. Now his future lies in a potentially profitable marijuana patch hidden in the

lush old-growth redwoods on the family land. Nelson has some serious problems. His marriage has fallen apart, and he may lose his land, cash and crop in the divorce. What's more, in need of some quick cash, he had foolishly agreed to smuggle \$90,000 worth of cocaine through customs for Harry Lally, a major player in a drug syndicate. Chickening out just before bringing the drugs through, he flushed the powder. Now Lally wants him dead, and two goons are hot on his trail. Desperate, terrified and alone, for Nelson, there may be only one way out. This is Denis Johnson's biggest and most complex book to date, and it perfectly showcases his signature themes of fate, redemption and the unraveling of the fabric of today's society. *Already Dead*, with its masterful narrative of overlapping and entwined stories, will further fuel the acclaim that surrounds one of today's most fascinating writers.

Hailed by the New York Times as "wildly ambitious" and "the sort of book that a young Herman Melville might have written had he lived today and studied such disparate works as the Bible, 'The Wasteland,' Fahrenheit 451, and Dog Soldiers, screened Star Wars and Apocalypse Now several times, dropped a lot of acid and listened to hours of Jimi Hendrix and the Rolling Stones," *Fiskadoro* is a stunning novel of an all-too-possible tomorrow. Deeply moving and provocative, *Fiskadoro* brilliantly presents the sweeping and heartbreaking tale of the survivors of a devastating nuclear war and their attempts to breaking tale of the survivors of a devastating nuclear war and their attempts to salvage remnants of the old world and rebuild their culture.
