AP Government Chapter 12 Study Guide

Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

How should we govern? and What should government do? Professors Edwards, Wattenberg, and Lineberry evaluate how well the American system lives up to citizens' expectations of democratic government and discuss alternative views concerning the proper scope of American government. In doing so they help students answer the critical question, "What difference does politics make?"

A fresh, accessible perspective on the fundamentals
