Apache Server 20 The Complete Reference

Users of IBM® z/OS® for the past several years had a choice of two HTTP Servers that they can use. Now, one server became strategic while the other is no longer supported with z/OS V2.2. IHS powered by Apache supports IPv6 and 64-bit execution and includes security authentication and authorization capabilities that are similar to those capabilities that are provided in IHS powered by IBM Domino®. This IBM Redpaper™ publication is aimed at technicians who are responsible for planning and deploying system software. It provides information on about the various features that are available in IBM HTTP Server powered by Apache. It also provides guidance about how to upgrade from the old product to the new product.

Your One-Stop Guide to Enterprise Reporting with Crystal Reports 2008 Transform disconnected corporate data into compelling, interactive business intelligence using all of the powerful tools available in Crystal Reports 2008. Through detailed explanations, real-world examples, and expert advice, this comprehensive guide shows you how to create, maintain, and distribute dynamic, visually appealing enterprise database reports. Crystal Reports 2008: The Complete Reference explains how to select and gather pertinent business data, organize it into manageable groups, and assemble it into user-friendly business reports. You will learn how to improve report interactivity with sort controls and the parameter panel; solve complex reporting problems with cross-tabs and subreports; integrate Crystal Xcelsius dashboards; reduce development time; and publish your results to Web and Windows applications. Integrate pictures, multimedia files, graphs, and charts Allow user-controlled report sorting with new sort controls Develop sophisticated formulas and custom functions with the Formula Workshop Embed Flash files, including Xcelsius 2008 interactive dashboards Create complex cross-tab reports with new derived rows and columns Export reports into Word, Excel, Acrobat, and updated XML formats Enhance Web interactivity with the new parameter panel and optional parameter fields Work with SQL databases, OLAP cubes, and proprietary systems Centralize design elements and auto-update reports using the repository Schedule and distribute reports with the latest BusinessObjects Enterprise XI 3.0 Embed reports in Web and Windows applications using Visual Studio 2008

at the distributed virtual Program Committee meeting. Each paper's review recommendations were carefully checked for consistency; in many instances, the Vice Chairs read the papers themselves when the reviews did not seem sufficient to make a decision. Throughout the reviewing process, I received a tremendous amount of help and advice from General Co-chair Manish Parashar, Steering Chair Viktor Prasanna, and last year's Program Chair Srinivas Arun; I am very grateful to them. My thanks also go to the Publications Chair Sushil Prasad for his outstanding efforts in putting the proceedings together. Finally, I thank all the authors for their contributions to a high-quality technical program. I wish all the attendees a very enjoyable and informative meeting. December 2008 P. Sadayappan Message from the General Co-chairs and the Vice General Co-chairs On behalf of the organizers of the 15th International Conference on High-Performance Computing (HIPC), it is our pleasure to present these proceedings and we hope you will find them exciting and rewarding. The HIPC call for papers, once again, received an overwhelming response, attracting 317 submissions from 27 countries. P. Sadayappan, the Program Chair, and the Program Committee worked with remarkable dedication to put together an outstanding technical program consisting of the 46 papers that appear in these proceedings.
