Yasmina Reza (born 1 May 1959) is a French playwright, actress, novelist and screenwriter best known for her plays 'Art' and God of Carnage. Many of her brief satiric plays have reflected on contemporary middle-class issues.

*Yasmina Reza - Wikipedia*

Reza uses direct address frequently throughout the play in order to allow her three main characters to communicate how they are really feeling. Because so much of the play is about pretension, ego, and pride, Marc, Serge, and Yvan are not always able to reveal their innermost thoughts to one another, and therefore seek confession to and perhaps even validation from the audience.

Covering the five centuries from Shakespeare's Bankside playhouses to today's West End, Paul Ibell's *Theatreland* explores the history and current state of the London stage, taking the reader through the streets and alleyways of the theatre capital of the world. London's theatre district is quite literally built on the past. Although the book celebrates this, and the artistic achievements that still resonate today, it also emphasises that theatre is an art form that can only survive and flourish through fresh talent, new work and constant reinterpretation of old classics. Through a series of entertaining and engaging chapters on themes, personalities and trends, *Theatreland* reflects the effortless co-existence between past and present that is such a feature of London's theatre world, and shows how actors and producers, playwrights and publicists, theatre historians and modern architects, choreographers, critics and customers all play their part in ensuring that London remains the theatre capital of the world. *Theatreland* brings back to life the generations of actors, impresarios, princes and playwrights who created and shaped this cityscape, and describes how the 21st century

Double Shakespeares examines contemporary performances of Shakespeare's plays, and narratives about rehearsing and performing Shakespeare's plays, that acknowledge the inescapable doubleness of "emotional-realist" acting.

This study presents the first broad analysis of Maghrebian women's dramatic literature undertaken in English. The book considers sixty-five plays and works of performance art by twenty-eight women dramatists from the Maghreb.

Artistic Creation and Ethical Criticism, a study in philosophical aesthetics, investigates an idea that underpins the ethical criticism of art but that is rarely acknowledged and poorly understood - namely, that the ethical criticism of art involves judgments not only of the attitudes a work endorses or solicits, but of what artists do to create the work. The book pioneers an innovative production-oriented approach to the study of the ethical criticism of art - one that will provide a detailed philosophical account of the intersection of ethics and artistic creation as well as conceptual tools that can guide future philosophizing and criticism. Ted Nannicelli offers three

arguments concerning the ethical criticism of art. First, he argues that judgments of an artwork's ethical value are already often made in terms of how it was created, and examines why some art forms more readily lend themselves to this form of ethical appraisal than others. He then asserts that production-oriented evaluations of artworks are less contested than other sorts of ethical criticism and so lead to certain practical consequences—from censure, dismissal, and prosecution to shifts in policy and even legislation. Finally, Nannicelli defends the production-oriented approach, arguing that it is not only tacit in many of our art appreciative practices, but is in fact rationally warranted. There are many cases in which we should ethically critique artworks in terms of how they are created because this approach handles cases that other approaches cannot and results in plausible judgments about the works' relative ethical and artistic value. The concise, powerful arguments presented here will appeal to moral philosophers, philosophers of art and aesthetics, and critics interested in the intersection of artistic production and criticism and ethics.

seminal essay "Of Friendship," found it nearly impossible to account for the great friendship of his life. Why is something so commonplace and universal so hard to grasp? What is it about the nature of friendship that proves so elusive? In *On Friendship*, the acclaimed philosopher Alexander Nehamas launches an original and far-ranging investigation of friendship. Exploring the long history of philosophical thinking on the subject, from Aristotle to Emerson and beyond, and drawing on examples from literature, art, drama, and his own life, Nehamas shows that for centuries, friendship was as much a public relationship as it was a private one—inseparable from politics and commerce, favors and perks. Now that it is more firmly in the private realm, Nehamas holds, close friendship is central to the good life. Profound and affecting, *On Friendship* sheds light on why we love our friends—and how they determine who we are, and who we might become.
