Interest in sustainable, green building practices is greater than ever. Whether concerned about allergies, energy costs, old-growth forests, or durability and long-term value, homeowners and builders are looking for ways to ensure that their homes are healthy, safe, beautiful, and efficient. In these pages are descriptions and manufacturer contact information for more than 1,400 environmentally preferable products and materials. All phases of residential construction, from sitework to flooring to renewable energy, are covered. Products are grouped by function, and each chapter begins with a discussion of key environmental considerations and what to look for in a green product. Over 40 percent revised, this updated edition includes over 120 new products. Categories of products include: Sitework and landscaping Outdoor structures Decking Foundations, footers, and slabs Structural systems and components Sheathing Exterior finish and trim Roofing Doors and windows Insulation Flooring and floor coverings Interior finish and trim Caulks and adhesives Paints and coatings Mechanical systems/HVAC Plumbing, electrical, and lighting Appliances Furniture and furnishings Renewable energy Distributors and retailers An index of products and manufacturers makes for easy navigation. There is no more comprehensive resource for both the engaged homeowner and those who design and build homes. Editor Alex Wilson is president of BuildingGreen, an authoritative source for information on environmentally responsible design and construction, which also publishes Environmental Building News. Co-editor Mark Piepkorn has extensive experience with natural and traditional building methods.

Small businesses don't need to run prime-time television ads to effectively compete with the big end of town anymore. With great SEO, businesses can be listed alongside, and indeed, in front of their top-end competitors. SEO for Australian Small Business is essential reading for anyone running or starting a business in Australia. Sam Hemphill & Elyse Maberley break down complex topics around SEO into easily digestible and actionable pieces.

Environmental concerns can greatly affect business success, regardless of whether a business person or corporation shares those concerns. Today's corporate managers must understand the power of environmental issues, and shift their mindset from one focused on environmental "management" to one focused on strategy. Competitive Environmental Strategy examines the effects of environmentalism on corporate management, explaining how and why environmental forces are driving change and how business managers can think about environmental issues in a strategic way. The author discusses: the evolving drivers of corporate environmental strategy, including regulators, shareholders, buyers and suppliers, insurers, investors, and consumers how environmentalism alters basic conceptions of competitive strategy and organizational design how external institutions create both opportunity and limitations for environmental strategy how environmental threats can be incorporated into risk management, capital acquisition, competitive position, and other management concerns The book ends with an overall discussion of competitive environmental strategy and draws connections to the emerging issue of sustainable development. Each chapter features insets that ask fundamental questions about the relationship between environmental protection and business strategy, and ends with a list of additional recommended readings. Every individual who wishes to engage in business management in the 21st century will need an appreciation for the implications of environmental issues on corporate activities, and vice-versa. Competitive Environmental Strategy offers a valuable overview of the subject, and provides a wealth of real-world examples that demonstrate the validity and applicability of the concepts for business people, clearly showing how managers are turning an understanding of environmental issues to competitive advantage.

Provides lists of selling prices of items found on eBay in such categories as antiques, boats, books, cameras, coins, collectibles, dolls, DVDs, real estate, stamps, tickets, and video games.
