A dynamic and hip collective biography that presents forty-four of America's greatest movers and shakers, from Frederick Douglass to Aretha Franklin to Barack Obama, written by ESPN's TheUndeatead.com and illustrated with dazzling portraits by Rob Ball. Meet forty-four of America's most impressive heroes in this collective biography of African American figures authored by the team at ESPN's TheUndeatead.com. From visionaries to entrepreneurs, athletes to activists, the Fierce 44 are beacons of brilliance, perseverance, and excellence. Each short biography is accompanied by a compelling portrait by Robert Ball, whose bright, graphic art pops off the page. Bringing household names like Serena Williams and Harriet Tubman together with lesser-known but highly deserving figures such as Robert Abbott and Dr. Charles Drew, this collection is a celebration of all that African Americans have achieved, despite everything they have had to overcome.

Here are first-time English translations of the autobiographical works of two important and influential Jewish mystics. In The Book of Visions Rabbi Hayyim Vital (1542-1620), foremost disciple of R. Isaac Luria, describes his mystical experiences in great detail. In The Book of Secrets, Rabbi Yizhak Isaac Safrin of Komarno (1806-1874) recounts incidents in his life and visionary experiences.

In the midst of Trump's attacks on the media, comes this look at the rigorous, independent reporting of the year's most underreported news stories. While the country's president displays a brazen disregard for the First Amendment and routinely demonizes the press as "the enemy of the people," Censored 2020 looks beyond Donald Trump's dizzying contempt for the truth to clarify the corporate media's complicity in misinforming the American public--while also providing a clear vision of a better future, based on rigorous, trustworthy independent reporting that presents a fuller picture of truth. With a discerning eye, Censored 2020 focuses the public's attention on the most important but underreported news stories of 2018-2019. These stories expose the corporate news media's systemic blind spots while highlighting the crucial role played by independent journalists in providing the kind of news necessary for informed, engaged citizens. The book also examines this year's lowlights in "junk food news" and "news abuse"--further revealing how corporate news often functions as propaganda--as well as highlights of exemplary organizations that champion "Media Democracy in Action." Additional chapters address the importance of constructive journalism, the untold story of Kashmir, news coverage of LGBTQ issues in the Trump era, "fake news" as a Trojan horse for censorship, and online memes as a form of political communication.

"[A] remarkably revealing history....This well-researched, opinionated account does a fine job of filling a surprisingly empty historical niche." —Publishers Weekly Citizen-in-Chief, The Second Lives of the American Presidents, is a smartly researched, surprising, often witty, and always revealing look at former presidents from George Washington to George W. Bush. Authors Leonard Benardo and Jennifer Weiss offer readers entertaining true stories of the radical turns, provocative rehabilitations, and tragic trajectories of presidential lives after the White House. Washington Post columnist Richard Cohen calls Citizen-in-Chief, "an engrossing book, Benardo and Weiss tell a fascinating tale," and he properly states that where our nation's leaders went after leading is often "more interesting than the presidency itself."

Drawing for Urban Design explores a wide range of ways to represent the city, from freehand sketching to sophisticated computer models. Architects and urban planners need to describecities in the course of their work, be it through maps, diagrams, sketches, computer renderings, or models. This book provides an introduction to these techniques while explaining the processes associated with describing and designing urban environments—it is an invaluable visual handbook for representing the contemporary city.

Students deem Civil Procedure to be one of the hardest classes in law school for good reason. Doctrines from personal jurisdiction to res judicata are difficult to apply to exam fact patterns, and the policies underlying the federal rules can be difficult to grasp. The course is a complex hybrid of common law, statutes, rules, and some constitutional doctrine. For the first time, Oxford University Press equips students with an accessible guide to acing this most challenging of law school tests. In Civil Procedure: Model Problems and Outstanding Answers, Scott Dodson helps students demonstrate their knowledge of civil procedure in the structured and sophisticated manner that professors expect on law school exams. This book includes clear introductions to the major topics in civil procedure, provides hypotheticals that students can expect to see on an exam, and offers model answers to those hypotheticals. Professor Dodson then gives students the opportunity to evaluate their own work with a comprehensive self-analysis section. This book prepares students by challenging them to use the law they learn in class while also explaining the best way to express an answer on law school exams. This second edition has been updated to reflect recent changes to the federal rules of civil procedure. It incorporates new paradigm cases, including Wal-Mart, Goodyear, and McIntyre. The second edition also reflects the new rule and statutory amendments, including the Federal Courts Jurisdictions and Venue Clarification Act of 2011.

At the time of her death in after a long battle with cancer, Eve Sedgwick had been working on a book on affect and Proust, and on the psychoanalyst Melanie Klein. This volume, edited by Jonathan Goldberg, brings together a collection of her last work.

From the foreword: "One of the High Line's powers is its ability to evoke time, to remind us of the changes we've experienced during our own lives, to bring forth echoes of the past, and to make us guess what life might be like years from now. I love the photos on these pages, because they have that power, too." --Joshua David, Co-Founder of the Friends of the High Line. Ten Avenues Press, in association with Friends of the High Line, announce the publication of High Line Nudes. In 2006, photographer Kevin McDermott took three of his friends up on the abandoned railroad tracks that would become New York City's High Line park to shoot a series of nudes. As McDermott states in his introduction, "at the time I took these photos, what I sought from its beauty was its sense of isolation, being alone, surrounded by nature in the middle of this metropolis." A decade later, this location is now one of the most visited tourist destinations in NYC and one of the largest real estate developments in the world. High Line Nudes captures a seemingly impossible, but beautiful moment in the history of the West Side Rail Yards, Chelsea and an ever changing New York City. The cloth hardcover book is beautifully printed in color and rich black and white duotone images.
