For courses in Beginning & Intermediate Algebra. Understanding and Applying Mathematical Concepts The goal of the Bittinger Concepts and Applications Series is to help today’s student learn and retain mathematical concepts. This proven program prepares students for the transition from skills-oriented elementary algebra courses to more concept-oriented college-level mathematics courses. This requires the development of critical-thinking skills: to reason mathematically, to communicate mathematically, and to identify and solve mathematical problems. The new editions support students with a tightly integrated MyLab™ Math course; a strong focus on problem-solving, applications, and concepts, and the robust MyMathGuide workbook and objective-based video program. In addition, new material-developed as a result of the authors’ experience in the classroom, as well as from insights from faculty and students-includes more systematic review and preparation for practice, as well as stronger focus on real-world applications. Also available with MyLab Math. MyLab™ Math is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. Note: You are purchasing a standalone product; MyLab™ does not come packaged with this content. Students, if interested in purchasing this title with MyLab, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and MyLab, search for: 0134772342 / 9780134772349 Elementary & Intermediate Algebra: Concepts & Applications Plus MyLab Math -- Title-Specific Access Card Package, 7/e Package consists of: 013446270X / 9780134462707 Elementary and Intermediate Algebra: Concepts & Applications 0134762614 / 9780134762616 MyLab Math with Pearson eText -- Standalone Access Card -- for Elementary and Intermediate Algebra: Concepts & Applications

For courses in Beginning & Intermediate Algebra. Understanding and Applying Mathematical Concepts The goal of the Bittinger Concepts and Applications Series is to help today's student learn and retain mathematical concepts. This proven program prepares students for the transition from skills-oriented elementary algebra courses to more concept-oriented college-level mathematics courses. MyLab Math Standalone Access Card to accompany Bittinger/Ellenbogen/Johnson, Elementary and Intermediate Algebra: Concepts and Applications, 7/e This item is an access card for MyLab(TM) Math. This physical access card includes an access code for your MyLab Math course. In order to access the online course you will also need a CourseID, provided by your instructor. This title-specific access card provides access to the Bittinger/Ellenbogen/Johnson, Elementary and Intermediate Algebra: Concepts and Applications, 7/e accompanying MyLab course ONLY. 0134762614 / 9780134762616 MyLab Math with Pearson eText - Standalone Access Card - For Elementary and Intermediate Algebra: Concepts and Applications, 7/e MyLab Math is the world's leading online tutorial, and assessment program designed to help you learn and succeed in your mathematics course. MyLab Math online courses are created to accompany one of Pearson's best-selling math textbooks. Every MyLab Math course includes a complete, interactive eText. Learn more. ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. NOTE: If you want the Book/Access Code order the ISBN below: 0134772342 / 9780134772349 Elementary and Intermediate Algebra: Concepts and Applications Plus MyLab Math -- Title-Specific Access Card Package, 7/e Package consists of: 013446270X / 9780134462707 Elementary and Intermediate Algebra: Concepts and Applications, 7/e 0134762614 / 9780134762616 MyLab Math with Pearson eText -- Standalone Access Card -- for Elementary and Intermediate Algebra: Concepts and Applications, 7/e

The Bittinger Graphs and Models Series helps readers learn algebra by making connections between mathematical concepts and their real-world applications. Abundant applications, many of which use real data, offer students a context for learning the math. The authors use a variety of tools and techniques—including graphing calculators, multiple approaches to problem solving, and interactive features—to engage and motivate all types of learners.

Normal 0 false false false The Bittinger Concepts and Applications Program delivers proven pedagogy, guiding students from skills-based math to the concepts-oriented math required for college courses.

"For courses in elementary and intermediate algebra." Objective: Visualizing the Concepts One of the hallmarks of the Bittinger Developmental Math program is objective-based learning. In "Elementary and Intermediate Algebra: Graphs and Models, "Fifth Edition, the authors place special emphasis on conceptual understanding, modeling, and visualization. Their goal is to help students see the math and learn algebra by making connections between the math and real-world applications. For the Fifth Edition, the authors have made many updates to the text and applications, as well as to the accompanying resources. These include important enhancements to the MyMathLab course, new Active Learning Figures, and the creation of a new interactive video program, To-the-Point Objective Videos, associated with a new student workbook, "MyMathGuide: Notes, Practice, and Video Path." Also available with MyMathLab MyMathLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. The text and MyMathLab course form a tightly integrated program with all new To-the-Point Objective Videos, Active Learning Figures, and "MyMathGuide" workbook. Note: You are purchasing a standalone product; MyLab & Mastering does not come packaged with this content. Students, if interested in purchasing this title with MyLab & Mastering, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and MyLab & Mastering, search for: 0134195795 / 9780134195797 Elementary and Intermediate Algebra: Graphs & Models Plus MyMathLab -- Student Access Kit Package consists of: 013417240X / 9780134172408 Elementary & Intermediate Algebra: Graphs & Models 0321431308 / 9780321431301 MyMathLab -- Glue-in Access Card 0321654064 / 9780321654069 MyMathLab Inside Star Sticker "

Books a la Carte are unbound, three-hole-punch versions of the textbook. This lower cost option is easy to transport and comes with same access code or media that would be packaged with the bound book. The Bittinger Concepts and Applications Program delivers proven pedagogy, guiding students from skills-based math to the concepts-oriented math required for college courses. This Package Contains: Elementary and Intermediate Algebra: Concepts & Applications, Sixth Edition, (a la Carte edition) with MyMathLab/MyStatLab Student Access Kit

For courses in Intermediate Algebra. Understanding and Applying Mathematical Concepts The goal of the Bittinger Concepts and Applications Series is to help today's student learn and retain mathematical concepts. This proven program prepares students for the transition from skills-oriented elementary algebra courses to more concept-oriented college-level mathematics courses. This requires the development of critical-thinking skills: to reason mathematically, to communicate mathematically, and to identify and solve mathematical problems. The new editions support students with a tightly integrated MyMathLab course; a strong focus on problem-solving, applications, and concepts, and the robust MyMathGuide workbook and objective-based video program. In addition, new material--developed as a result of the authors' experience in the classroom, as well as from insights from faculty and students--includes more systematic review and preparation for practice, as well as stronger focus on real-world applications. Also available with MyMathLab (tm) . MyMathLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results.
