New Orleans is a city of many storied streets, but only one conjures up as much unbridled passion as it does fervent hatred, simultaneously polarizing the public while drawing millions of visitors a year. A fascinating investigation into the mile-long urban space that is Bourbon Street, Richard Campanella's comprehensive cultural history spans from the street's inception during the colonial period through three tumultuous centuries, arriving at the world-famous entertainment strip of today. Clearly written and carefully researched, Campanella's book interweaves world events -- from the Louisiana Purchase to World War II to Hurricane Katrina -- with local and national characters, ranging

from presidents to showgirls, to explain how Bourbon Street became an intriguing and singular artifact, uniquely informative of both New Orleans's history and American society. While offering a captivating historical-geographical panorama of Bourbon Street, Campanella also presents a contemporary microview of the area, describing the population, architecture, and local economy, and shows how Bourbon Street operates on a typical night. The fate of these few blocks in the French Quarter is played out on a larger stage, however, as the internationally recognized brands that Bourbon Street merchants and the city of New Orleans strive to promote both clash with and complement each other. An epic narrative detailing the influence of politics, money, race, sex, organized crime, and tourism, *Bourbon Street: A History* ultimately demonstrates that one of the most well-known addresses in North America is more than the epicenter of Mardi Gras; it serves as a battle-ground for a fundamental dispute over cultural authenticity and commodification.

Bourbon Street in New Orleans was a glamorous place with a long-held reputation for a good time. While the rest of America was getting more conservative, Bourbon Street became more salacious. Burslesque dancers filled the stages as live bands played to entice tourists inside the darkened bars. Evangeline the Oyster Girl was already a headlining act in 1949, rising seductively out of her oyster shell, her erotic ballet filled the seats. Evangeline's star continued to rise until a new act rolled into town. Divina the Aqua Tease also had a water theme to her act which was now going to take the spotlight off of Evangeline. Divina wanted to be the new headliner, but Evangeline had other plans. New Orleans own 'Historian Jane' wrote this short read to showcase the amazing women who made Bourbon Street the place to be. 'Historian Jane' is a historian, tour guide, researcher, and author living in New Orleans where she shares the bad ass women who made New Orleans the cultural gem it has been for over 300 years.

New Orleans is so much more than the Bourbon Street scenes you may have seen--it's a 300-year-old city made up of vibrant neighborhoods, diverse populations, and traditions layered upon each other. World class food is available not only in our famous restaurants, but in corner restaurants across the city. Mardi Gras is the party we throw for ourselves, but invite the world to take part in. If partying with 1,000,000 friends is not your style, there are festivals nearly every week of the year to suit your taste and interests. Join Mark Bologna, host of the popular *Beyond Bourbon Street* podcast and curator of the Instagram page of the same name, as he explores the people, places, music, history and culture that make New Orleans unique.

"From the immigrants of the 1910s, to the preservationists of the 1930s, to the nightclub workers and owners of the 1950s and the urban revivalists of the 1990s, *Madame Vieux Carre* examines the many different people who have called the Quarter home, who have defined its character, and who have fought to keep it from being overwhelmed by tourism's neon and kitsch"--Page 2 of cover.

Exploring the Crescent City from the ground up, Richard Campanella takes us on a winding journey toward explaining the city's distinct urbanism and eccentricities. In *Cityscapes of New Orleans*, Campanella—a historical geographer and professor at Tulane University—reveals the why behind the where, delving into the historical and cultural forces that have shaped the spaces of New Orleans for over three centuries. For Campanella, every bewildering street grid and linguistic quirk has a story to tell about the landscape of Louisiana and the geography of its bestknown city. *Cityscapes of New Orleans* starts with an examination of neighborhoods, from the

origins of faubourgs and wards to the impact of the slave trade on patterns of residence. Campanella explains how fragments of New Orleans streets continue to elude Google Maps and why humble Creole cottages sit alongside massive Greek Revival mansions. He considers the roles of modern urban planning, environmentalism, and preservation, all of which continue to influence the layout of the city and its suburbs. In the book's final section, Campanella explores the impact of natural disasters as well-known as Hurricane Katrina and as unfamiliar as "Sauvé's Crevasse," an 1849 levee break that flooded over two hundred city blocks. Cityscapes of New Orleans offers a wealth of perspectives for uninitiated visitors and transplanted citizens still confounded by terms like "neutral ground," as well as native-born New Orleanians trying to understand the Canal Street Sinkhole. Campanella shows us a vibrant metropolis with stories around every corner.

Bienville's Dilemma is a historical geography of the city of New Orleans that primarily focuses on the dilemma of the city's site versus its situation.

Tells the story of Bobcat Bob and his band and how their music disappeared for awhile, making the people of New Orleans sad.

Hotel chain mogul Sol DuMont is about to learn that some of life's biggest surprises come in deceptively small packages—namely a petite heiress named Rain who's hell-bent on upsetting her family's expectations—in this first book in the all new series by Thea de Salle, set against the sultry backdrop of New Orleans. Thirty-seven-year-old Sol DuMont is a divorcee and the owner of a mid-sized hotel chain in New Orleans. Since Hurricane Katrina, his father's death, and the decision that he and his ex-wife Maddy are far better off friends than lovers, he's lost interest in almost everything he held dear—parties, people, and pushing limits. All his limits. Then Arianna Barrington checks into his hotel. Twenty-four-year-old Arianna "Rain" Barrington could have been society's sweetheart. Her family is moneyed, connected press darlings, and make sweeping headlines from coast to coast for reasons both good and bad. But when her mother shoves her at Charles Harwood—the obnoxious, entitled heir of Harwood Corp—to cement a billion-dollar business merger, Rain does the only thing she can think of to escape: she creates a scandal so big Harwood doesn't want her anymore before fleeing to New Orleans for much-needed rest and relaxation. All she wants is jazz piano, beignets, and to sail the Mississippi. What she gets is Sol DuMont, a whirlwind affair, and a hands-on education in sex, power play, and pushing limits. All her limits.

Combining historic and ethnographic research, Angela R. Demovic reveals the intersection of alcohol sales and stripteasing in the French Quarter. She demonstrates how B-drinkers—workers hired by bar owners to flirt with patrons who buy them drinks—maintain agency and create community in a tourism economy.

Writing Performance, Identity, and Everyday Life invites the reader into Ronald J. Pelias' world of artistic and everyday performance. Calling upon a broad range of qualitative methods, these selected writings from Pelias submerge themselves in the evocative and embodied, in the material and consequential, often creating moving accounts of their topics. The book is divided into four sections: Foundational Logics, Performance, Identity, and Everyday Life. Part I addresses the methodological underpinnings of the book, focusing on the

' touchstones ' that inform Pelias ' work: performative, autoethnographic, poetic, and narrative methods. These directions push the researcher toward empathic engagement, a leaning toward others; using the literary to evoke the cognitive and affective aspects of experience; and an ethical sensibility located in social justice. Parts II–IV focus on artistic and everyday life performances, including discussions of the disciplinary shift from the oral interpretation of literature to the field of performance studies; empathy and the actor ' s process; conceptions of performance; the performance of race, gender, and sexuality; and performances in interpersonal relations and academic circles. By the end, readers will see Pelias demonstrate the power of qualitative methods to engage and to present alternative ways of being. Pelias ' work shows us how to understand and feel the evocative strength of thinking performatively.
