Performance-Based Assessment for Middle and High School Physical Education, Second Edition, breaks down the complex topic of assessments and shows you how to develop assessments that will help you and your students work together to enhance the instructional process in physical education. The authors describe the various types of performance-based assessments and show how to integrate assessments into fitness education and physical education, using numerous models that can be adapted to your own situation. The authors provide a wealth of tools for assessing students according to local, state, and NASPE standards while helping students reach their goals. The text is supported by a Web site that includes a test package, a presentation package with PowerPoint slides, an instructor guide, and a CD-ROM that includes additional forms and assessments.

One of the world's most highly sought-after bowling instructors provides bowlers with comprehensive coverage on the essential equipment, techniques, lane play and spare-shooting strategies, and mental training necessary for success on the lanes. With specific information for both right-handed and left-handed bowlers, this is a one-of-kind book to help you bowl better!

This text describes how to create a programme that addresses the specific needs and capabilities of middle school students, while helping them through the transition from childhood to young adulthood. This edition is fully updated and revised.

Dean Hinitz gives serious bowlers the mental tools for performing at their best. Bowling Psychology features the latest mental training concepts including mindfulness training, sensory awareness, and mind-body connection as well as insightful interviews from top bowlers—many of whom are clients of the author.
