Winner of the Eisner Award for Talent Deserving Wider Recognition, the International Comics Festival Award for Best Debut Graphic Novel (Angouleme, France), and voted by Wizard Magazine as the best indy graphic novel of all time. "A convincing, absorbing and satisfying fictional portrait of post-college life in New York City."-- Publishers Weekly "A salute to comics, an exploration of the human condition, and a solid, absorbing, and riotously snide tale about at least half of the things that make life important."-- Tasha Robinson, The AV Club "Box Office Poison is a novel complex enough to provoke Book Talk. I even marked panels with post-it notes as I was reading so that I'd remember to show them to my friends."-- Kelly Sue DeConnick, Artbomb.com "The comic book equivalent of the world's best pineapple upside-down cake: layer upon layer of rich dramatic goodness."-- Matthew Craig, Robotfist.com "Box Office Poison is to the comic book culture as Almost Famous is to that of rock and roll."-- Chris Tamarri, The Daily Targum This 608-page epic story of Sherman, Dorothy, Ed, Stephen, Jane, and Mr. Flavor is a true comics masterpiece. Alex Robinson's completely natural and inspiring knack for dialogue makes this story of dreary jobs, comic books, love, sex, messy apartments, girlfriends (and the lack thereof), undisclosed pasts, and crusty old professionals one of the most delightful and whimsical graphic novels to hit the stands in years.

Previously unpublished short stories rounding out last year's smash hit Box Office Poison. More Box Office Poison stories from Alex Robinson! "By basically transcribing a completely mental D&D session into comics - down to healing potions and backstabbing, which must be this week's theme - Alex Robinson's made the only Red Sonja comic I'd want to read. For \$7, it's a perfect stocking-stuffer for the gaming nerd(s) in your life." --Kevin Church, BeaucoupKevin.com "Lower Regions is a firecracker of a comic spin on sword and sorcery . . . just plain fun to read . . . this little book just explodes in your hands and face." -- Laroy Doussesaux, Comic Book Bin "The absence of dialogue actually makes Alex Robinson's Lower Regions more clever than one might think. . . . Any gamer that recognizes the inherent -- or inadvertent -- comic qualities of many tabletop D&D sessions should appreciate Robinson's Lower Regions all the more. Appreciate them. Appreciate them now." --Kurt Amacker, Mania.com "It's really quite accomplished, for all its seeming absurdity ... an immensely fun and surprisingly rewarding trifle."--Tim O'Neil, The Hurling "You tasted his Box Office Poison then got Tricked, so brace yourself for ALEX ROBINSON'S LOWER REGIONS! The award winning creator follows up his acclaimed graphic novels with a bold new direction: a pretty barbarian lady with an axe chopping her way through a dungeon filled with monsters! The suppression of family history is the initial thread that ties together The Love Bunglers, featuring Hernandez's longtime Love and Rockets heroine Maggie. Because these secrets can't be dealt with openly, their lingering effect is even more powerful. But Maggie's ability to navigate and find meaning in her life - despite losing her culture, her brother, her profession, and her friends - is what's made her a compelling character. After a lifetime of losses, Maggie finds, in the second half, her longtime off and on lover, Ray Dominguez. Much like John Updike in his four Rabbitnovels, Jaime Hernandez has been following his longtime character Maggie around for several decades, all of which has seemed to be building towards this book in particular.
