The officially licensed Corvette Stingray: The Mid-Engine Revolution chronicles the full development story behind Chevrolet's re-imagined sports car with an engaging, detailed text and photography from GM's archives and Corvette team members. Corvette is Chevrolet's iconic performance car. Its importance to the brand cannot be overstated. Thus each new generation is sweated by Chevy's designers, engineers, marketing staff, and executives to ensure that it sets the bar higher than the preceding version. With the eighth generation, Chevrolet has done more than raise the bar or move the goalpost--they've torn down the stadium and started from scratch. For the first time ever in a production version, the new Corvette features a mid-engine configuration. Though Corvette engineers have experimented with this engine placement over the past several decades, 2020 marks the first time GM has committed it to production cars. Corvette already had prodigious power on tap, but its front-engine configuration put some limitations on its handling and traction. The new mid-engine Corvette eliminates any final performance barriers and takes the battle to supercar rivals like Ferrari, Lamborghini, and McLaren. It's the story every Corvette fan needs to read.

The Bad Samaritan is set in a kleptomaniac and highly corrupt imaginary African country called Ewawa. Due to mismanagement, financial institutions collapse. Salaries are slashed and there is unprecedented unemployment leading to country exodus. Professor Esole and his wife are not only aggrieved by the salary slashes, but also by the dubious closure of the Post Office Savings Bank with their savings. Desperate for money, they resort to borrowing from private sources at exorbitant interest rates. Esole toddles into politics with the aim of righting things. Will his naïve approach to politics make or mar?

Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.

An automotive book like no other you've ever read! Guaranteed to surprise, intrigue, entertain and inform whether the reader is an automotive expert or a complete novice; altogether a memorable, eye-opening journey through our automotive heritage. Preston Tucker & Others celebrates those pioneering individuals with a radical, non-conformist approach to car design, from Preston Tucker and his Torpedo to Guy Negre and his zero-emission dream. Lavishly illustrated and intensively researched, this is also the story of the milestone inventions that have shaped today's cars and automotive landscape.
