By comparison, the JS 26's sibling, the JS46, is equipped with a Briggs & Stratton 875 Series engine that puts out 8.75 foot-pounds of torque; the JS46 is also equipped with an electric start system.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

Covering New York, American & regional stock exchanges & international companies.

From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent-and loud-fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it-personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

This do-it-yourself guide explains how to repair and maintain lawn mowers, trimmers, spreaders, and outdoor hand tools and includes plans for garden sheds and basic lawn planning and maintenance.
