Business Start-up is a two-level course for beginners and false beginners who need English for their work. It takes low-level students up to the point where they can start preparing for the BEC Preliminary Examination (early B1 level) and provides a solid foundation for further learning. The Student's Books bring reality to even the most basic levels of language learning through the presentation of natural language in authentic contexts, a regular focus on real companies and products, and practice in the communication skills that professionals really need. Audio recordings for the rich listening material are available on separate CDs. The A5 size Workbooks come with a CD-ROM/Audio CD offering self-study grammar and vocabulary activities, as well as listening practice on the move. The Teacher's Books include full classroom notes, additional communicative practice activities and regular progress tests, plus an end of course/placement test.

Business Start-up is a two-level (CEF level A1/A2) Business English course for adults who need English for their work. This new Business English course takes beginners and false beginners from basic English up to the point where they can start preparing for the BEC Preliminary examination. Business Start-up brings reality to the most basic levels of language learning through the use of authentic material, real companies and credible communication scenarios, ensuring that adult learners remain interested and motivated. Communication skills are carefully prioritized, allowing learners to start working in English at the earliest opportunity. To complement the professional English syllabus, the final lesson in each unit deals with a 'Time Out' topic, focusing on essential language for travel and socializing, allowing learners to build important general vocabulary. The Business Start-up Workbooks provide self-study practice of the language from the Student's Books. In addition, the Workbooks come with a free CD-ROM/Audio CD containing extra grammar, listening and vocabulary practice. This version is available in German-speaking markets only.

The unfathomable rate of Black males in education should result in a national call to action. Across the country Black males represent only 2% of the teaching workforce. By the year 2024, minority students will be the majority, yet our current education workforce does not reflect this growing trend in what has been called "The Browning of America." Why is it acceptable that a student can matriculate from Kindergarten through twelfth grade and not have one Black male as his or her teacher? Why has it been a challenge to recruit and in many instances retain Black males in the classroom? Unopened Books explains what is referenced in the book as the Five Black Male Deterrents in Education. Through the personal narrative of Jermaine D. Gassaway, a native Washingtonian, educator, and school leader; coupled with practical solutions, Unopened Books provides insight to multiply the 2%. It is intended to not only be a provocative conversation starter but an actionable approach to increase the number of Black men in the classroom.

Although start-ups represent a major phenomenon in the USA, they also create skepticism and even suspicion, perhaps because of the excesses of the Internet bubble. Apple, Microsoft, Intel, Cisco, Yahoo and Google were all start-ups and these success stories show that the phenomenon is not mere speculation. The goal of this book is to show start-ups from a different angle. Start-ups are created by individuals who are passionate and who have dreams. Therefore this work should not only be read by specialists of innovation or by high tech entrepreneurs, but also by anyone interested in the history and economics of start-ups. The book is presented in two parts: it begins with a presentation of Silicon Valley start-ups, which ends with a description of the ecosystem of this region. The second part is dedicated to Europe, where the start-up phenomenon has failed in comparison. The main message is that it is absolutely necessary to take more inspiration from Silicon Valley.

Teachers, especially those in nursery and pre-primary schools, know that it takes specialized learning aids to help children learn how to identify objects, develop eye-hand and fine motor coordination, improve attention span, and learn to focus on the activity in which they are participating. The aim of BEE CLEVER Activity Books Keeping these important learning factors in mind, a pre-school educator and counsellor has created a series of simple and stimulating activity books. These help develop the skills a child needs, plus contribute to the further development of the child's 'writing readiness'. Pallavi Dalal - the creator of BEE CLEVER Activity Books - has spent over 25 years working with pre-school children. She says, "There has been much thought, care, understanding, laughter and joy that has gone into creating these books. I can only hope that they will bring children many 'magical moments' of learning, and spending time with each other in a happy and relaxed frame of mind." Two Important Factors While planning any activity for children, two important principles of learning are always uppermost in her mind: 1. "I see and I remember." 2. "I do and I understand." She has designed these books to develop differentiating and logical thinking skills in children and evaluate their interests in certain areas, without making them feel like they are being 'tested'! How BEE CLEVER books are DIFFERENT - Objects illustrated are those a child is generally familiar with. - Instructions can be read to a child without having to simplify them. - Illustrations are bold and clear for the child to see and work comfortably. - Accurate use of grammar, punctuation and spelling. - Each book in the series explains the value of doing that specific activity. - Simple 'Do's and Don'ts' create a 'win-win' situation for the child. BEE CLEVER SERIES: - Colouring 1 - Colouring 2 - Join the Dots 1 - Join the Dots 2 Matching - Mazes 1 - Mazes 2 - Numbers 1 - Numbers 2 - Odd One Out - Opposites 1 - Opposites 2 - Pattern & Letter Writing 1 - Pattern & Letter Writing 2 - Phonics 1 - Phonics 2 - Shapes 1 - Shapes 2 - Story Sequence - What's Different? - What's Next? - What's Wrong?
