The "brilliant, courageous" book (Washington Post) that inspired the Netflix documentary series The Family and reveals the secret influence of fundamentalism in American politics. The author of the runaway paperback bestseller The Family returns with a blistering investigation of the true influence of fundamentalism in American politics. Jeff Sharlet is the only journalist to report from inside the C Street House, the Fellowship residence known by its Washington, D.C., address. This luxury townhouse, recently the setting of notorious political scandal, is more crucially home to efforts to transform American democracy. After laying bare the Fellowship's history in his runaway bestseller The Family, Sharlet now shows that past efforts of America's religious fundamentalists pale in comparison to their long-term ambitions today. In C STREET Sharlet reveals why culture war endure and why they matter now—from the American-backed war on gays in Uganda to the battle for the soul of America's armed forces. Drawing on exclusive sources and explosive, newly disclosed documents, Sharlet exposes not the last gasp of old-time religion but the new front lines of American fundamentalism. .

A visionary work of radical empathy. Known for immersion journalism that is more immersed than most people are willing to go, and for a prose style that is somehow both fierce and soulful, Jeff Sharlet dives deep into the darkness around us and awaiting us. This work began when his father had a heart attack. Two years later, Jeff, still in his forties, had a heart attack of his own. In the grip of writerly self-doubt, Jeff turned to images, taking snapshots and posting them on Instagram, writing short, true stories that bloomed into documentary. During those two years, he spent a lot of time on the road: meeting strangers working night shifts as he drove through the mountains to see his father, exploring the life and death of Charley Keunang, a once-aspiring actor shot by the police on LA's Skid Row, documenting gay pride amidst the violent homophobia of Putin's Russia; passing time with homeless teen addicts in Dublin; and accompanying a lonely woman drifting into dementia, whose only friend was a houseplant, on shopping trips. Early readers have called this book "incantatory," the voice "prophetic," in "James Agee's tradition of looking at the reality of American lives." Defined by insomnia and late-night driving and the companionship of other darkness-dwellers—night bakers and last-call drinkers, frightened people and frightening people, the homeless and the lost (or merely disoriented), other people on the margins—This Brilliant Darkness erases the boundaries between author, subject, and reader to ask: how do people live with suffering?

A journalist's penetrating look at the untold story of christian fundamentalism's most elite organization, a self-described invisible network dedicated to a religion of power for the powerful They are the Family—fundamentalism's avant-garde, waging spiritual war in the halls of American power and around the globe. They consider themselves the new chosen—congressmen, generals, and foreign dictators who meet in confidential cells, to pray and plan for a "leadership led by God," to be won not by force but through "quiet diplomacy." Their base is a leafy estate overlooking the Potomac in Arlington, Virginia, and Jeff Sharlet is the only journalist to have reported from inside its walls. The Family is about the other half of American fundamentalist power—not its angry masses, but its sophisticated elites. Sharlet follows the story back to Abraham Vereide, an immigrant preacher who in 1935 organized a small group of businessmen sympathetic to European fascism, fusing the far right with his own polite but authoritarian faith. From that core, Vereide built an international network of fundamentalists who spoke the language of establishment power, a "family" that thrives to this day. In public, they host Prayer Breakfasts; in private, they preach a gospel of "biblical capitalism," military might, and American empire. Citing Hitler, Lenin, and Mao as leadership models, the Family's current leader, Doug Coe, declares, "We work with power where we can, build new power where we can't." Sharlet's discoveries dramatically challenge conventional wisdom about American fundamentalism, revealing its crucial role in the unraveling of the New Deal, the waging of the cold war, and the no-holds-barred economics of globalization. The question Sharlet believes we must ask is not "What do fundamentalists want?" but "What have they already done?" Part history, part investigative journalism, The Family is a compelling account of how fundamentalism came to be interwoven with American power, a story that stretches from the religious revivals that have shaken this nation from its beginning to fundamentalism's new frontiers. No other book about the right has exposed the Family or revealed its far-reaching impact on democracy, and no future reckoning of American fundamentalism will be able to ignore it.

A Killing the Buddha Anthology The second collection to spring from KillingTheBuddha.com, Believer, Beware presents true tales of sex ed in Catholic school, witches in Kansas, sects and the city, Buddhists in the barbershop, Sufis under your nose, an adolescent Jewish messiah in Queens, and more. In a world riven by absolute convictions, these ambivalent confessions, skeptical testimonies, and personal revelations speak to the subtler and stranger dilemmas of faith and doubt-of religion lost and found and lost again.

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. Paints a portrait of the American spiritual landscape by profiling religious radicals, realists and escapists from a congregation of urban anarchists to a youth evangelist in this linked narrative from the author of best-selling The Family. 15,000 first printing.

After the September 11 terrorist attacks against the United States, religious fundamentalism has dominated public debate as never before. Policymakers, educators, and the general public all want to know: Why do fundamentalist movements turn violent? Are fundamentalisms a global threat to human rights, security, and democratic forms of government? What is the future of fundamentalism? To answer questions like these, Strong Religion draws on the results of the Fundamentalism Project, a decade-long interdisciplinary study of antimodernist, antisecular militant religious movements on five continents and within seven world religious traditions. The authors of this study analyze the various social structures, cultural contexts, and political environments in which fundamentalist movements have emerged around the world, from the Islamic Hamas and Hizbullah to the Catholic and Protestant paramilitaries of Northern Ireland, and from the Moral Majority and Christian Coalition of the United States to the Sikh radicals and Hindu nationalists of India. Offering a vividly detailed portrait of the cultures that nourish such movements, Strong Religion opens a much-needed window onto different modes of fundamentalism and identifies the kind of historical events that can trigger them.

"I have to be honest with you: Islam is on very thin ice with me. . . . Through our screaming self-pity and our conspicuous silences, we Muslims are conspiring against ourselves. We're in crisis and we're dragging the rest of the world with us. If ever there was a moment for an Islamic reformation, it's now. For the love of God, what are we doing about it?" In blunt, provocative, and deeply personal terms, Irshad Manji unearths the troubling cornerstones of mainstream Islam today: tribal insularity, deep-seated anti-Semitism, and an uncritical acceptance of the Koran as the final, and therefore superior, manifesto of God. In this open letter to Muslims and non-Muslims alike, Manji asks arresting questions: "Who is the real colonizer of Muslims - America or Arabia? Why are we all being held hostage by what's happening between the Palestinians and the Israelis? Why are we squandering the talents of women, fully half of God's creation? What's our excuse for reading the Koran literally when it's so contradictory and ambiguous? Is that a heart attack you're having? Make it fast. Because if more of us don't speak out against the imperialists within Islam, these guys will walk away with the show." Manji offers a practical vision of how the United States and its allies can help Muslims undertake a reformation that empowers women, promotes respect for religious minorities, and fosters a competition of ideas. Her vision revives Islam's lost tradition of independent thinking. This book will inspire struggling Muslims worldwide to revisit the foundations of their faith. It will also compel non-Muslims to start posing the important questions without fear of being deemed "racists." In more ways than one, The Trouble with Islam is a clarion call for a fatwa-free future.

Working in four scholarly teams focused on different global regions—North America, the European Union, the Middle East, and China—the contributors to Religion, Secularism, and Political Belonging examine how new political worlds intersect with locally specific articulations of religion and secularism. The chapters address many topics, including the changing relationship between Islam and politics in Tunisia after the 2010 revolution, the influence of religion on the sharp turn to the political right in Western Europe, understandings of Confucianism as a form of secularism, and the alliance between evangelical Christians and neoliberal business elites in the United States since the 1970s. This volume also provides a methodological template for how humanities scholars around the world can collaboratively engage with sweeping issues of global significance. Contributors: Markus Balkenhol, Elizabeth Bentley, Kambiz GhaneaBassiri, David N. Gibbs, Ori Goldberg, Marcia Klotz, Zeynep Kurtulus Korkman, Leerom Medovoi, Eva Midden, Mohamad Mustafa, Mu-chou Poo, Shaul Setter, John Vignaux Smith, Pooyan Tamimi Arab, Ernst van den Hemel, Albert Welter, Francis Ching-Wah Yip, Raef Zreik

"If you meet the Buddha on the road, kill him." The ninth-century sage Lin Chi gave this advice to one of his monks, admonishing him that this Buddha would only be a reflection of his unexamined beliefs and desires. Peter Manseau and Jeff Sharlet took Lin Chi's advice to heart and set out on a car trip around America, looking for Buddhas along the road and the people who meet them: prophets in G-strings dancing to pay the rent, storm chasers hunting for meaning in devastating tornados, gangbangers inking God on their bodies as protection from bullets, cross-dressing terrorist angels looking for a place to sing. Along the way Manseau and Sharlet began to wonder what the traditional scripture they encountered everywhere -- in motels, on billboards, up and down the radio dial -- would look like remade for today's world. To find out, they called upon some of today's most intriguing writers to recast books of the Bible by taking them apart, blowing them up with ink and paper. Rick Moody recasts Jonah as a modern-day gay Jewish man living in Queens. A.L. Kennedy meditates on the absurdity of Genesis. In Samuel, April Reynolds visits a man of tremendous vision in Harlem. Peter Trachtenberg unravels the Gordian logic of Job by way of the Borscht Belt. Haven Kimmel dives into Revelation and comes out in a swoon. Woven through these divine books are Manseau and Sharlet's dispatches from the road, their Psalms of the people. What emerges from this work of calling is not an attack on any religion, but a many-colored, positively riveting look at the facets of true belief. Together these curious minds tell the strange, funny, sad, and true story of religion in America for the spiritual seeker in all of us: A Heretic's Bible.
