The responsibility for facilitating effective continuing professional development (CPD) is based firmly in schools. Frequently, decisions are based on gut feeling, advertisements received or prior experiences. Effective Teacher Development encourages readers to move beyond this and to enhance their strategic decision making in order to effectively develop CPD programmes within their school, partner schools, federations or school chains. The theory behind CPD is explored, drawing on research and evidence from recent practice, including a 10-year international longitudinal study of the effectiveness of professional development to teachers. Readers are supported to develop their understanding of the whole life cycle of a CPD programme, from setting up a new programme to evaluating the effectiveness of existing provision. Chapter summaries and navigational tools support readers looking for guidance on particular issues and questions encourage readers to reflect on the impact of suggestions in their own particular context. Effective Teacher Development is essential reading for all involved in designing, implementing and developing effective CPD programmes.

MasterClass in English Education draws on international research and practice to present effective and engaging approaches for English teaching, focusing on the skills, knowledge and understanding needed in the classroom. As well as exploring the key modes of English teaching, reading, writing, speaking and listening, the contributors show how a greater understanding of English can be found through drawing together modalities, for example understanding reading through writing. Case studies and classroom examples ensure that it's easy to understand the relevance of the theory in the classroom and links to research and critical texts support readers to develop practice and their professional voice. Topics covered include: - subject knowledge - curriculum - media and technology - pedagogy MasterClass in English Education will be essential reading for all studying the teaching and learning of English of PGCE and Education Med/MA courses.

Global electro-optic technology and markets.
