Differentiated Reading for Comprehension is designed to provide high-interest, nonfiction reading success for all readers. This 64-page book focuses on sixth grade reading skills defined by the Common Core State Standards. Each of 15 stories is presented separately for the below-level, on-level, and advanced students, followed by a series of comprehension questions. Grade six covers such standards as quoting a text to explain an answer or draw inferences, identifying and explaining an author's reasons and evidence, and analyzing the structure of a text. This new series will allow teachers to present the same content to below-level, on-level, and advanced students with these leveled nonfiction stories. It includes multiple-choice, fill-in-the-blank, and true/false questions; short-answer writing practice; and comprehension questions. Students stay interested, build confidence, and discover that reading can be fun! The reading passages will be separated into sections with titles such as Extreme Places, Amazing People, Wild Animals, Strange and

development and develop basic math, problem solving, language, music, movement, and literacy skills. A Concept and Activity Matrix are included to help educators identify, focus, assess, and enhance specific skills of each student. Its 160 pages include hundreds of child-tested and developmentally appropriate group activities.

This book covers common phonics topics such as blends, digraphs, vowel combinations, prefixes, and suffixes. Included are worksheets, games, and activities.

Engage students in grades 2 – 4 and build their confidence using Graphing: Hidden Pictures. This 64-page resource teaches essential graphing skills through hands-on activities using popular second-through fourth-grade themes. Students work to reveal hidden pictures while practicing reading order, fine-motor skills, attention to detail, and concentration. They take pride in the finished product and look forward to the next lesson. The lessons are ideal for independent practice and homework. This book aligns with state, national, and Canadian provincial standards.

Skill Builders are great tools for keeping children current during the school year or preparing them for the next grade level. A variety of fun and challenging activities provides students with practice and helps introduce basic skills to new learners. This full-color workbook contains appropriate passages and exercises based on national standards for third grade to help ensure that children master necessary math skills before progressing. Skill Builders combines
