To earn the Certified Business Continuity Professional (CBCP) designation, you must pass a multiple choices exam administered by DRII affiliates or by Prometrics. This qualifying exam has a lot of questions that ask for your "best decisions" - of the hundreds of questions you will encounter in the exams, a significant portion of them requires that you pick the best possible options. These best options are often based on experience and best practices not easily found in the standard exam text books. There are also plenty of questions on concepts and theories. We create these self-practice test questions (200+ questions) referencing the concepts and principles currently valid in the exam. Each question comes with an answer and a short explanation which aids you in seeking further study information. For purpose of exam readiness drilling, this product includes questions that have varying numbers of choices. Some have 2 while some have 5 or 6. We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas. Think of these as challenges presented to you so to assess your comprehension of the subject matters. The goal is to reinforce learning, to validate successful transference of knowledge and to identify areas of weakness that require remediation. The questions are NOT designed to "simulate"

actual exam questions. "realistic" or actual questions that are for cheating purpose are not available in any of our products. If you have purchased our CBCP Study Guide, then you may not need to buy this product. Most (but not all) questions in this product are already included in our CBCP Study Guide.

Business continuity is a term that describes the processes and procedures an organization puts in place to ensure that essential functions can continue during and after a disaster. Business continuity planning seeks to prevent interruption of mission-critical services, and to reestablish full functioning as swiftly and smoothly as possible. To earn the Certified Business Continuity Professional (CBCP) designation, you must pass a multiple choices exam administered by DRII affiliates or by Prometrics. There is only ONE EXAM; your score on the same exam determines your eligibility for certification at a variety of levels - DRII offers FOUR certs now. The DRII exam maintains a very high standard for the following reasons: a) To establish their standards on an ISO9000 certification level; b) To ensure that people who pass the exam do have strong practice knowledge, interest and expertise; c) To ensure that the credibility for the profession is maintained. Information and terminology from the 10 Subject Areas of the Professional Practices standard serve as basis for the DRII exam. This exam (which has a new version released in mid-Feb) has a lot of questions that ask for your "best decisions" - of the hundreds of questions you will encounter in the exams, a significant portion of them requires that you pick the best possible options. These best options are often based on experience and best practices not easily found in the standard exam text books. There are also plenty of questions on concepts and theories. These are the questions quite closely related to the published objectives of the official BOK. They mostly ask for the correct definitions of terms. For example, you will be tested heavily on the difference between RM and BIA. You will also be tested on your understanding of the way ER works. The CHPCP exam is for continuity professional working in the healthcare industry. It covers best practices in business continuity for healthcare based on the DRII professional practices for business continuity. Topics on NFPA 1600, JCAHO, HIPAA, NIMS, and OSHA are also covered. This study guide covers BOTH the CBCP qualifying exam and the CHPCP qualifying exam.

To earn the Certified Business Continuity Professional (CBCP) designation, you must pass a multiple choices exam administered by DRII affiliates or by Prometrics. them requires that you pick the best possible options. These best options are often based on experience and best practices not easily found in the standard exam text books. There are also plenty of questions on concepts and theories. The CHPCP exam is for continuity professional working in the healthcare industry. It covers best practices in business continuity for healthcare based on the DRII professional practices for business continuity. Topics on NFPA 1600, JCAHO, HIPAA, NIMS, and OSHA are also covered. Information presented in this study guide covers BOTH the CBCP qualifying exam and the CHPCP qualifying exam. You should start with CBCP first (since the concepts are equally applicable to public sector scenarios) with the understanding that risks within the health care industry are for sure much more specific than most traditional private sector risks.

Business continuity is a term that describes the processes and procedures an organization puts in place to ensure that essential functions can continue during and after a disaster. Business continuity planning seeks to prevent interruption of mission-critical services, and to reestablish full functioning as swiftly and smoothly as possible.
