Children are most at risk from this and they are being bombarded with fantasy images to this end. In early childhood, the mental state is controlled almost exclusively by the reptilian brain and the purveyors of children's "entertainment" like Disney exploit this knowledge. Disney is a major Illuminati operation.

This book is about how an interdimensional race has controlled the world for thousands of years- and still does.

How an interdimensional race has controlled the planet for thousands of years - and still does.

David Icke's spiritual journey leads him deeper into the world of global deception, a plan he calls a coup d'etat on the human mind. This book contains detailed information, plus an outline to solutions which will lead us into a glorious future in which humanity will be truly free.

David Icke's strongest book to date, The Robots' Rebellion reveals the alarming extent to which people of all nations are programmed by the ideas fed to them by those in power. We live in a world which is increasingly dominated by technology but, according to Icke, it is we who are the robots. Fearlessly, he tears down the veils of hypocrisy, built up for generations by the corrupt forces of Church, State, science and commerce - and reveals the true pathos of the human condition beneath. He points, too, to the frightening influence wielded throughout the planet by a merciless and manipulative network of secret societies. The existence of long-established links between Earth-bound humanity and beings from other dimensions and planets in the Universe has been suppressed for years, says Icke, by the world's power-broking hierarchy. When ordinary people learn the real role they have to play within a rich and varied cosmic society, rebellion against those who have kept this extraordinary truth from them will, he predicts, be inevitable. The author is no stranger to controversy. Formerly best-known as a TV sports commentator and leading spokesman for the British Green Party, he is gaining increasing authority as a tireless campaigner for truth. His widely-publicised spiritual transformation has given him the courage to speak out fearlessly against lies deceit. Hidebound politicians, bankers, economists, educationalists, scientists and the leaders of the world's established religions are not going to welcome Icke's challenging book. But it is not intended for those who wield and abuse power. This book is for the world's unwilling robots who, says Icke, in an upbeat conclusion, have it within themselves to rise up - and take control of their own exciting destiny. The Robots' Rebellion: Table of Contents Introduction Remember Who You Are PART ONE: The Darkness The Takeover Bid Collective Amnesia The Brotherhood of Clans Bible Stories Hell on Earth Arabian Knights The Cracks Appear Eagle Tails The Rule of Science The World at War Big is Beautiful The New World Order When Will We Ever Learn? PART TWO: The Light Goodbye to All That The Economics of Enough The Politics of People The Science of Sanity Bricks in the Wall Exploitation of the Spirit The World Needs Rebels
