How might Hercules, the most famous of the Greek heroes, have used mathematics to complete his astonishing Twelve Labors? From conquering the Nemean Lion and cleaning out the Augean Stables, to capturing the Erymanthean Boar and entering the Underworld to defeat the three-headed dog Cerberus, Hercules and his legend are the inspiration for this book of fun and original math puzzles. While Hercules relied on superhuman strength to accomplish the Twelve Labors, Mythematics shows how math could have helped during his quest. How does Hercules defeat the Lernean Hydra and stop its heads from multiplying? Can Hercules clean the Augean Stables in a day? What is the probability that the Cretan Bull will attack the citizens of Marathon? How does Hercules deal with the terrifying Kraken? Michael Huber's inventive math problems are accompanied by short descriptions of the Twelve Labors, taken from the writings of Apollodorus, who chronicled the life of Hercules two thousand years ago. Tasks are approached from a mathematical modeling viewpoint, requiring varying levels of knowledge, from basic logic and geometry to differential and integral calculus. Mythematics provides helpful hints and complete solutions, and the appendixes include a brief history of the Hercules tale, a review of mathematics and equations, and a guide to the various disciplines of math used throughout the book. An engaging combination of ancient mythology and modern mathematics, Mythematics will enlighten and delight mathematics and classics enthusiasts alike.

This book provides a multidisciplinary overview of the design and implementation of systems for remote patient monitoring and healthcare. Readers are guided step-by-step through the components of such a system and shown how they could be integrated in a coherent framework for deployment in practice. The authors explain planning from subsystem design to complete integration and deployment, given particular application constraints. Readers will benefit from descriptions of the clinical requirements underpinning the entire application scenario, physiological parameter sensing techniques, information processing approaches and overall, application dependent system integration. Each chapter ends with a discussion of practical design challenges and two case studies are included to provide practical examples and design methods for two remote healthcare systems with different needs.

Discover the inner secrets of Chiron, the most recently discovered planet, and see how it is interpreted in astrological charts with "Chiron" by Barbara Hand Clow. Chiron is a peculiar planetoid that orbits the Sun from between Saturn and Uranus. Its discovery in 1977 was concurrent with the explosion of divination, alternative healing techniques, and a new hope for a spiritual regeneration. "Chiron" explores this planet's mythological background and history as well as its effect on astrology. This comprehensive book includes: The meaning of Chiron when it appears in each house The meaning of Chiron in aspect to each planet The meaning of Chiron through each sign The mythological legacy of Chiron A Chiron ephemeris Chiron in transit Chiron as a bridge between the inner and outer planetsBased on over 700 charts from the author's personal files, "Chiron" is the first book to explore in depth the astrological meanings of this planet. Learn how you can incorporate Chironic wisdom in your astrological readings and your life with this groundbreaking work.

In RIVER OF LIFE, the author's bottom line is to teach people how to achieve greater happiness in their relationships, career, and presumably, one's self. She discusses (all within a water metaphor): meditation and how to interpret the findings; the inner child and how it can/does affect adult choices, and creative approaches to solving blocks.

Revised and updated edition of the classic astrology text on predicting and navigating life crises • Provides charts for the transits of Saturn, Uranus, and Chiron—now updated through 2050—to predict your personal growth cycles and timing of kundalini rising • Shares tools to cope with the intensity of spiritual emergency and direct the kundalini energy released during planetary passages • Includes a new preface by the author reflecting on 20 years of success stories since the book 's initial publication • No astrological chart needed to use this book In this updated edition of Liquid Light of Sex, renowned astrologer and spiritual teacher Barbara Hand Clow explores the connection between life crises in your 30s, 40s, and 50s and the key astrological passages of Saturn, Uranus, and Chiron in your birth chart. She explains how kundalini energy--the " liquid light of sex " that lies at the base of the spine--is activated during these planetary transits, rising through the chakras and triggering the process of spiritual emergency, and in many cases, a cascade of health, emotional, and relationship problems as well as extreme anxiety. She shows that by understanding these astrological transits, you can be prepared for turbulent periods and successfully navigate them by creatively channeling the spiritual fire of kundalini. Clow provides astrological charts--now updated through 2050 for those born between 1930 and 2000--detailing the cycles of Saturn, Uranus, and Chiron, so you do not need your birth chart to use this book. She explains how to use the charts to predict the onset and completion of each kundalini activation and corresponding crisis. She shares tools for individuals and therapists to cope with the intensity of spiritual emergency and too much fire energy, unblock the chakras, and integrate the power of kundalini for physical, emotional, and spiritual growth. Reflecting on 20 years of success stories since the book ' s initial publication, Clow presents a road map for using celestial cycles to navigate positively and productively in times of great life change.
