with new interventions added on phototherapy and asthma inhalers. UNIQUE! Safety Alerts highlight safety information throughout the book. UNIQUE! Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, and stress. Nursing Care Plans include guidelines and examples for developing care plans for patients, and a companion Evolve website allows you to modify, customize, and print these care plans. UNIQUE! A community focus includes guidelines to interventions, patient teaching, and home care, along with Community Focus boxes throughout book. Tables and charts for health promotion summarize nutrition, immunizations, safety and injury prevention, and parental guidance.

Swearingen, this book is known for its clear approach, easy-to-use format, and straightforward rationales. NANDA-I nursing diagnoses are incorporated throughout the text to keep you current with NANDA-I terminology and the latest diagnoses. Color-coded sections for medical-surgical, maternity, pediatric, and psychiatric-mental health nursing care plans make it easier to find information quickly. A consistent format for each care plan allows faster lookup of topics, with headings for Overview/Pathophysiology, Health Care Setting, Assessment, Diagnostic Tests, Nursing Diagnoses, Desired Outcomes, Interventions with Rationales, and Patient-Family Teaching and Discharge Planning.

Wongs Essentials Of Pediatric Nursing 1st Edition Text Only

Prioritized nursing diagnoses are listed in order of importance and physiologic patient needs. A two-column format for nursing assessments/interventions and rationales makes it easier to scan information. Detailed rationales for each nursing intervention help you to apply concepts to specific patient situations in clinical practice. Outcome criteria with specific timelines help you to set realistic goals for nursing outcomes and provide quality, cost-effective care. NEW! Care plan for normal labor and birth addresses nursing care for the client experiencing normal labor and delivery. UPDATED content is written by practicing clinicians and covers the latest clinical developments, new pharmacologic treatments,
