An excerpt from the book: Hernando De Soto was not the biggest name explorer or conquistador by any means, but he is probably the most important one to know for the AP US test. Why? Because he the first European explorer to really explore the United States, near Florida. Before he explored what is current day United States he was a member of the Spanish government in what is now Nicaragua. He even invaded Peru at one point. All in all he had an interesting prior life, but for this test you really just need to know his route and, more so, his significance more generally in history.
