Introduces a revised approach to the management and control of noise in the workplace. This book presents assessment and management of noise risks, practical advice on noise control, buying and hiring of quieter tools and machinery, selection and use of hearing protection and the development of health surveillance procedures.

".....It's the story of the human race and God's unflinching presence." "This fascinating account of humankind, from our beginnings in Africa seven million years ago to the present, blends history, anthropology, and spirituality to demonstrate that god has been and always will be with us. ...[from back cover]

Elegant letters are the perfect way to personalize a greeting card, stationery or a memorable gift. Turn mundane mail into envelopes that promise something really special. Send special tangled thank-you notes and enclosure cards for showers, weddings and baby announcements. Using the relaxing process of Zentangle, you can create unique letters with stunning details and sumptuous backgrounds - one tangle at a time. You'll be amazed as delightful designs flow beautifully from your hand. "Anything is possible, one stroke at a time."TM - Rick Roberts and Maria Thomas, zentangle.com

Discusses how to build Web sites with Contribute, allowing users to more easily edit or add new pages, text, images, and animations to existing Web sites.

For almost two decades the work of Rodolfo Machado and Jorge Silveti has remained at the forefront of theoretical production. Their rigorously detailed and exquisitely drawn projects characterize an attitude of aesthetic realism towards materials, construction, function, and the cultural role of architecture. Yet the conditions they address, and the effects they produce, are unprecedented. Their projects synthesize seemingly incompatible images, uses, and typologies. Unprecedented Realism is not an illustration of theory. Rather, what emerges is a constructive theory of architecture that understands the process of design itself as a distinct mode of knowledge—as theoretical research that is still irreducibly architectural. Unprecedented Realism presents both buildings and urban infrastructures: Steps of Providence, RI; Entrance for Cranbrook, Bloomfield Hills, Mich.; Carnegie-Mellon University Center, Pittsburgh; Pershing Square, Los Angeles; and Times Square, New York City. Along with the analytic text of K. Michael Hays, the volume includes critical essays by Alan Colquhoun, George Baird, Fars el-Dahdah, and Rodolphe el-Khoury (please see the Table of Contents).
