"A detailed, comprehensive bodyweight exercise guide that includes step-by-step exercise instructions, over 500 photographs, nutritional advice with simple-to-follow diet plans, and programs created to suit individual needs"--

From an elite Special Operations physical trainer, an ingeniously simple, rapid-results, do-anywhere program for getting into amazing shape For men and women of all athletic abilities! As the demand for Special Operations military forces has grown over the last decade, elite trainer Mark Lauren has been at the front lines of preparing nearly one thousand soldiers, getting them lean and strong in record time. Now, for regular Joes and Janes, he shares the secret to his amazingly effective regimen—simple exercises that require nothing more than the resistance of your own bodyweight to help you reach the pinnacle of fitness and look better than ever before. Armed with Mark Lauren ' s motivation techniques, expert training, and nutrition advice, you ' ll see rapid results by working out just thirty minutes a day, four times a week—whether in your living room, yard, garage, hotel room, or office. Lauren ' s exercises build more metabolism-enhancing muscle than weightlifting, burn more fat than aerobics, and are safer than both, since bodyweight exercises develop balance and stability and therefore help prevent injuries. Choose your workout level—Basic, 1st Class, Master Class,and Chief Class—and get started, following the clear instructions for 125 exercises that work every muscle from your neck to your ankles. Forget about gym memberships, free weights, and infomercial contraptions. They are all poor substitutes for the world ' s most advanced fitness machine, the one thing you are never without: your own body.

Think you need to hit the gym hard-core and work until you're sore to lose weight and improve your fitness and strength levels? Think again. You could do all of that and more, and all you need is your own body weight to do it! Your body is an incredible machine, stronger and more capable than you know, and it is in this book that you will learn just how to improve and adapt your fitness routines to harness your bodyweight training exercises for improved results. When you have everything that you need right there in front of you (your own body), you owe it to yourself to take control of your fitness and physique and achieve the fitness goals you set for yourself. Contrary to popular belief, you don't need a lot of heavy equipment, free weights or machines to get the results you're so longing to see. The human body can provide enough resistance on its own to make a change. Power, endurance, speed, flexibility, strength, coordination, balance and a whole host of other biomotor abilities can be built and developed over time by using the power of your own body to do it. Bodyweight training is growing in popularity. Even professional athletes are tapping into and harnessing the power of callisthenic training and making it a part of their fitness regime. Pushing, pulling, balancing, bending, twisting and squatting may look like simple bodyweight exercises, but they pack a power punch as you will soon see when you progress through the exercises in this book. Bodyweight training is the perfect option for those who don't have the time to hit the gym because they can be done anywhere and at any

Get that body you've always dreamt of without sacrificing your paycheck on an overpriced gym membership. Are you tired of paying a ridiculous amount of money to your gym without actually having the urge to go there? Do you get frustrated by the jungle-like nature of the gym, just wanting to be able to workout anywhere, anytime, with little to no equipment needed for your training? Are you looking for a way to reach what seems to be a near-impossible task: you love what you see in the mirror, are confident in your own skin, and actually find it fun to workout? If you answered 'yes' to any of the above questions, then you and calisthenics training will get along quite well. Working out seems to get more complicated as the years go by, with new trendy equipment popping up in ads claiming to burn 10x the number of calories than 'regular' ways of exercising. Not only will getting this equipment be at the dispense of your hard-earned money that you could be spending elsewhere, like for groceries or special occasions, but it will also take up
