Haematopoiesis: A Commemorative Issue in Honor of Professor Antonius Rolink" that was published in IJMS.

Selected topics and papers from the first international workshop on computer animation, held in Geneva in 1989, provide a comprehensive overview of the problems encountered in the rising field of computer animation. To foster interactive links between researchers, end-users, and artists, roundtables and discussions have been included as well as presentations of concepts and research themes such as keyframe to task-

those presently concerned with the computerisation of production management.

Rethinking the importance of Sigmund Freud's landmark book *The Interpretation of Dreams* a century after its publication in 1900, this work brings together psychoanalysts, philosophers, cultural theorists, film and visual theorists, and literary critics from several continents in a compilation of the best clinical and theoretical work being done in psychoanalysis today. It is unique in convening both theory and practice in productive dialogue, reflecting on the

encounter between psychoanalysis and the tradition of hermeneutics. Collectively the essays argue that Freud's legacy has shaped the way we think about not only psychology and the nature of the self but also our understanding of politics, culture, and even thought itself.
