This text provides the foundation for a wide range of careers in the fashion business. Incorporating the experience of the author and her five earlier editions of Fashion Merchandising: An Introduction, this book covers product development, home fashions, retailing strategies, and examines how communication trends and technological advances impact the fashion world.

What does it mean to grow up today as working-class young adults? How does the economic and social instability left in the wake of neoliberalism shape their identities, their understandings of the American Dream, and their futures? Coming Up Short illuminates the transition to adulthood for working-class men and women. Moving away from easy labels such as the "Peter Pan generation," Jennifer Silva reveals the far bleaker picture of how the erosion of traditional markers of adulthood-marriage, a steady job, a house of one's own-has changed what it means to grow up as part of the post-industrial working class. Based on one hundred interviews with working-class people in two towns-Lowell, Massachusetts, and Richmond, Virginia-Silva sheds light on their experience of heightened economic insecurity, deepening inequality, and uncertainty about marriage and family. Silva argues that, for these men and women, coming of age means coming to terms with the absence of choice. As possibilities and hope contract, moving into adulthood has been re-defined as a process of personal struggle-an adult is no longer someone with a small home and a reliable car, but someone who has faced and overcome personal demons to reconstruct a transformed self. Indeed, rather than turn to politics to restore the traditional working class, this generation builds meaning and dignity through the struggle to exorcise the demons of familial abuse, mental health problems, addiction, or betrayal in past relationships. This dramatic and largely unnoticed shift reduces becoming an adult to solitary suffering, self-blame, and an endless seeking for signs of progress. This powerfully written book focuses on those who are most vulnerable-young, working-class people, including African-Americans, women, and single parents-and reveals what, in very real terms, the demise of the social safety net means to their fragile hold on the American Dream.

You've heard about "flipping your classroom"—now find out howto do it! Introducing a new way to think about higher education,learning, and technology that prioritizes the benefits of the humandimension. José Bowen recognizes that technology is profoundlychanging education and that if students are going to continue topay enormous sums for campus classes, colleges will need to providemore than what can be found online and maximize "naked"face-to-face contact with faculty. Here, he illustrates howtechnology is most powerfully used outside the classroom, and, whenused effectively, how it can ensure that students arrive to classmore prepared for meaningful interaction with faculty. Bowen offerspractical advice for faculty and administrators on how to engagestudents with new technology while restructuring classes into moreactive learning environments.

This beautiful and informative enhanced ebook—so comprehensive it had to be split into two volumes, ebook 1 and ebook 2—offers a detailed introduction to the musical heritage of Central Asia for readers and listeners worldwide. Music of Central Asia balances "insider" and "outsider" perspectives with contributions by 27 authors from 14 countries. This stunning electronic book allows readers the opportunity to deeply engage with source material through over 180 embedded audio and video, pop-up study questions, transliterations and translations of performed texts, and direct links to the companion website (www.musicofcentralasia.org). The audio and video examples include transliterations and translations of the performed texts and a follow-along feature highlights the song lyrics in the text, as the audio samples play. This generously illustrated book is supplemented with boxes and sidebars, musician profiles, and an illustrated glossary of musical instruments, making it an indispensable resource for both general readers and specialists. Ebook 1 includes part I, "Music and Culture in Central Asia," an introductory overview of the music and musical instruments of Central Asia, and part II, "The Nomadic World," which focuses on music and musical life in historically nomadic regions of Central Asia. Ebook 2 contains part III, "The World of Sedentary Dwellers," which focuses on music and musical life in historically settled regions of Central Asia, and part IV, "Central Asian Music in the Age of Globalization," which addresses "the future of the past," focusing on cultural revitalization and renewal, tradition-based popular music, and contemporary music inspired but not constrained by tradition.

The new edition of what is now considered a classic on online learning has been expanded by about a third to reflect new opportunities offered by social media, new insights and ideas derived from the author's teaching in the eight years since she wrote the first edition, as well as from extensive research in the latest literature. In particular, Tisha Bender investigates whether the existing paradigm of teaching and learning has been changed, not so much because of the advent of the Internet, but because of the potential divide between the expectations and practices of students who are "digital natives" of the digital revolution, and those of their teachers who are mostly "digital immigrants". She addresses the question: do we need to change the way we teach in order to reach and engage digital natives fruitfully and enjoyably in their education. This accessible and comprehensive book offers an engaging and practical approach to online teaching that is rooted in the author's experience and enthusiasm for creating a virtual environment that engages students and fosters their deep learning. This is a book for all educators and administrators in higher education, in any discipline, engaged in, or contemplating offering, online classes that

involve discussion or collaborative learning. It is relevant both to faculty teaching a hybrid and face-to-face classes, and courses conducted entirely online.
