Correctional Counseling and Rehabilitation, 9th ed., presents foundations of correctional intervention, including overviews of the major systems of therapeutic intervention, diagnosis of mental illness, and correctional assessment and classification. Now fully updated to reflect DSM-5, its detailed descriptions and cross-approach comparisons help students prepare for a career in correctional counseling and allow working professionals to better determine which techniques might be most useful in their particular setting. The content is divided into five parts: (1) A Professional Framework for Correctional Counseling; (2) Understanding the Special Challenges Faced by the Correctional Counselor in the Prison Setting; (3) Offender Assessment, Diagnosis, and Classification; (4) Contemporary Approaches to Correctional Counseling and Treatment, (5) Interventions for Special Populations, and (6) Putting It All Together. The book is appropriate for upper-level undergraduates and graduate students in Criminal Justice and Criminology, Psychology, and Social Work programs as well as correctional counseling practitioners.

This book provides a comprehensive overview of the methods used in the Criminal Justice system in the United States to counsel and treat offenders. It is aimed at advanced undergraduate and early graduate-level students for courses in Correctional Treatment or Rehabilitation, or Community Corrections more broadly. The sections in the book provide: - Aims and Scope of Correctional Counseling and Treatment -Tools that Corrections Workers Use (including counseling and case management) - Behavioral Modification Treatments: Examples and Applications - Cognitive Therapies: Examples and Applications Throughout the text, there is an emphasis on the big picture: the interaction of the correctional component of the justice system with other components, particularly courts (including special courts like family courts, drug courts, veterans courts and other programs). Chapters in this book address the diverse population of correctional facilities, including juvenile offenders; those with mental illness, addiction and substance abuse problems, physical and mental disabilities; and homeless populations. The author also provides analysis of how legislation influences the corrections process. This work is also enhanced by providing comparative analysis of the criminal and juvenile justice systems: their goals, objectives, and how these can affect counseling and treatment available within these two systems. This pedagogical features of this engaging text include: excerpted interviews with correctional practitioners about the problems and challenges they encounter, discussion questions, classification instruments and real-world examples of specific treatments programs, and case studies that give students the chance to select the appropriate interviewing, counseling or treatment approach to deal with the problem/ issues of the case. This work provides students with an overview of the methods used for Correctional Treatment and Counseling, and the tools to begin to think critically about how and when to apply these methods.

The cognitive growth model maintains that correctional counseling is intended to help offenders balance their lives and important relations through developing more accurate social cognitions and understanding about the self, others, and patterns governing their interactions. This updated Second Edition employs the cognitive growth model to examine the major contemporary issues in correctional counseling and thoroughly explains how to use the model to fully understand and effectively perform correctional counseling. Correctional Counseling: A Cognitive Growth Perspective discusses such issues as, the counselor roles, work settings and challenges, offender classification and assessment, counseling processes, intervention/therapeutic techniques, and more. With this text the reader will learn how to respond to correctional clients and help them cope with their issues in the community and within prison. New to the Second Edition: -A NEW chapter (Chapter 11) on understanding and treating substance abuse has been added to address the increasing issue of substance abuse for the offender population. -Includes a NEW chapter (Chapter 12) on restorative justice. This chapter examines the skills and principles of restorative justice and addresses the needs of the victim, community, and the offender. -Contains updated crime statistics, further examines the issue of prisoner reentry, and provides additional information on drug/mental health courts. -Includes an expanded discussion on art therapy for assessment, and focuses on its techniques and benefits. -The chapter on counseling processes (Chapter 7) has been updated to include coverage on the issue of a gender-sensitive approach in counseling female offenders, and assessment and intervention for juvenile offenders. -The chapter on mentally disordered offenders (Chapter 10) includes an expanded discussion on research about mental illness and violence, and further analyzes the debate between social cognitive explanation and the biomedical explanation for mental disorder. Key Features: -Comprehensive in coverage, this text includes discussions on all major issues in contemporary correctional counseling (correctional counselors' roles, settings and challenges, major systems of therapeutic models, counseling processes, ethical dilemmas, etc.). Readers gain a wide-range of knowledge about correctional counseling theories and practice. -Although comprehensive, all discussions remain concise so that the reader can focus on and learn the most relevant and useful knowledge needed to succeed in the field. -Describes controversial issues in correctional counseling, including the limitations of counseling models and multidisciplinary perspectives for evidence-based counseling. This text encourages the reader to think critically and analyze the correctional issues being discussed. Instructor Resources: Instructor's Manual Test Bank PowerPoint Lecture Outlines"

Written by practitioners in the field, Correctional Counseling offers a strong practitioner orientation, enabling students to become proficient in providing basic correctional counseling services to the offender population. The desire to provide a teaching-and-learning aid that will create practitioners in the field who are competent in offender treatment is the overarching goal of this text. Students are provided basic information on underlying theoretical perspectives among a variety of counseling approaches, and the text addresses the details of the counseling and treatment process itself, explaining exactly how correctional counseling is done in the field.

"Excellent book, the best I have read." —John McCullogh, South Hills Business School Counseling Criminal Justice Offenders, Second Edition takes a practical view of offenders, their problems, and the difficulties counselors face working with them in criminal justice settings. Author Ruth E. Masters examines criminal justice counseling on an individual and group basis and in a variety of settings such as prisons, probation and parole agencies, diversion programs, group homes, halfway houses, prerelease facilities, and U.S. jails. The book also explores the many faces of offenders — young, old, male, female, and across many cultures. The Second Edition of Counseling Criminal Justice Offenders recognizes that individuals who counsel offenders in the criminal justice system often have not had the extensive training of a licensed psychologist and this text is designed to provide readers with an understanding of the counseling process. The book explores practical knowledge of legal principles, appropriate and effective counselor attitudes, and the past and present protocols of American corrections. Features and Benefits: Each chapter begins with Chapter Highlights and Key Terms and ends with corresponding exercises and discussion questions. A section at the end of each chapter lists relevant Internet sites and suggested readings. The book includes Counselor/Offender role-play scenarios that prepare students for situations such as how to restore order over a group counseling session, handle their own personal feelings about an offender, and much more. An Instructor's Manual including test items and skill-building exercises is available. New to the Second Edition: Chapters have been reorganized to emphasize the importance of counselors creating an alliance with offenders. Discussions have been updated on topics such as multicultural counseling, counseling victims, counseling paraprofessionals, cognitive-behavioral counseling, multimodal counseling, brief counseling, and counseling outcome effectiveness. New chapters have been added on counseling criminal psychopaths, the role of emotions in the counseling process, counseling male and female offenders, and the relationship between trauma, addiction, and human behavior. Primarily designed for criminal justice students taking correctional counseling courses, Counseling Criminal Justice Offenders, Second Edition is also a vital resource for any Criminal Justice, Social Work, Psychology, or Counseling practitioner interfacing with offenders.

Correctional Mental Health is a broad-based, balanced guide for students who are learning to treat criminal offenders in a correctional mental health practice. Featuring a wide selection of readings, this edited text offers a thorough grounding in theory, current research, professional practice, and clinical experience. It emphasizes a biopsychosocial approach to caring for the estimated 20% of all U.S. prisoners who have a serious mental disorder. Providing a balance between theoretical and practical perspectives throughout, the text also provides readers with a big-picture framework for assessing current correctional mental health and criminal justice issues, offering clear strategies for addressing these challenges.

This text explores the challenges that convicted offenders face over the course of the rehabilitation, reentry, and reintegration process. Using an integrated, theoretical approach, each chapter is devoted to a corrections topic and incorporates original evidence-based concepts, research, and policy from experts in the field, and examines how correctional practices are being managed. Students are exposed to examples of both the successful attempts and the failures to reintegrate prisoners into the community, and they will be encouraged to consider how they can help influence future policy decisions as practitioners in the field.
