(Woodwind Method). This Berklee Workshop provides the intermediate to advanced saxophone player with material that is both technically challenging and musically compelling. Preparatory exercises and reading studies combine to make this workshop an excellent method for improving technique, phrasing and rhythmic accuracy. Includes exercises to take reading and playing skills from novice to expert levels!

(Woodwind Method). This follow-up edition presents a continuation and expansion of the techniques presented in Scale Studies, with a special emphasis on chordal concepts. It includes innovative exercises and solos that will help sax players learn melody, harmony, rhythm and improvisation techniques.

Get more than your foot in the door! This is the bible for anyone who has ever dreamed of landing a job in the music business, from recording the next Top 10 hit to running a record company. Featuring advice and secrets to educate and empower the serious entertainment industry job seeker, this handy guide provides: details on booming job prospects in new media, a resource directory of key publications and top industry trade organizations, interviews with top pros revealing how they got their start, workshops to help you assess and develop a personalized career path, networking and resume tips, and much more.

(Berklee Press). How does a song become more than words and music to represent or influence the voice of a generation? Inside the Hits dissects more than 60 of the most powerful and memorable hit songs since the birth of rock and roll to reveal the roots of their success. Author Wayne Wadhams examines the key ingredients that made the songs work then and now, including: melody, lyrics, performance, production, artist image, promotion, and market timing. What really stopped Mick Jagger from getting "Satisfaction"? How did a secretary who was mistaken for a prostitute give Donna Summer her new sound? Find all the answers in Inside the Hits . "Reading Inside the Hits was like reliving some of the most memorable moments in rock and roll. A captivating read for industry professionals and fans alike." Phil Ramone

Take charge of your career with these do-it-yourself strategies for independent music success! Peter Spellman, the Director of the Career Development Center at Berklee, gives tips on how to: write a business plan, create press kits, use the Internet to boost your career, customize your demos for maximum exposure, get better gigs and airplay, network successfully, and create the industry buzz you need to succeed. A must-read for every aspiring musician!

(Berklee Guide). Learn to play jazz harmonies and rhythms on the flute. This book combines Joe Viola's two classic texts of the Technique of the Flute series: "Chord Studies" and "Rhythm Studies." You will learn melody, harmony, rhythm and improvisation techniques. In "Chord Studies" you will practice jazz harmonies and scales. In "Rhythm Studies" you will practice rhythms in simple and compound meters, with a variety of articulations, dynamics and phrase structures.

(Berklee Guide). A complete guide to playing and maintenance, this handbook offers essential information on all dimensions of the saxophone. It provides an overview of technique, such as breathing, fingerings, articulations, and more. Exercises will help you develop your sense of timing, facility, and sound. Extensive directions on repairs will help you maintain your instrument and customize it to support your own playing style and preferences. You'll learn to fine-tune your reed, recork the keys, fix binding keys, replace pads, and many other repairs and adjustments. You'll also learn to improve your tone, intonation, and flexibility while playing with proper technique.

A systematic approach to mastering the entire range of the saxophone through major and minor scales and arpeggios. Rather than focusing on the middle of the saxophone range and a limited number of key signatures, the goal here is to teach students to read in all key signatures - including enharmonic keys - and to play comfortably in the extreme registers. This book offers exercises that focus in these specific problem areas. It begins with one-octave scales and arpeggios followed by preparatory studies for the full range. This preparation is achieved through exercises extending upward and downward from the middle range with scales finally played full range. Each scale or arpeggio exercise is stated in order of increasing sharps or flats, ultimately addressing all major and minor keys. Report forms for each exercise and key (including metronome markings) are provided so students can evaluate their progress.

Your warm-up time is a precious thing. It can get you off to a great day of practicing or it can set you back every time you pick up your instrument. Learning the correct way to warm up will benefit every part of your playing and send you on your way to mastering the saxophone! This book is the product of the last 10 years of building my warm-up routine and will teach you my proven method guaranteed to improve your playing by leaps and bounds. The exercises in this book are designed specifically for the range of the saxophone and address some of the most common problems that people who play this instrument run into. The main areas of study in this method are: 1. Sound Concepts 2. Scales & Arpeggios 3. Working with a Metronome 4.
