This is the chapter slice "Keys to Organization" from the full lesson plan "Critical Thinking"* With Critical Thinking, Students will gain the ability to not only understand what they have read, but how to build upon that knowledge independently by examining such skills as independent thinking, organization, asking questions, and problem-solving. Definitions of important terms and many opportunities to practice the skills being taught make our resource user-friendly and easy to understand. In addition, the objectives used in this book are structured using Bloom ' s Taxonomy of Learning to ensure educational appropriateness. You will be able to teach students the basic skills they will need to become critical thinkers. What they will learn from our resource will be just the beginning of a critical thinking journey that will continue through college and into adulthood. All of our content meets the Common Core State Standards and are written to Bloom's Taxonomy.

Give students the tools and the experience they need to critically analyze text and respond to test questions that are correlated to Common Core Standards. Begin with Test A which provides call-out tips on how to approach each question or problem. Progress to Test B which provides fewer tips. Test C provides no tips. Since the goal is to learn to think critically (not just score well), the answer key gives not just the right answers, but also explanations for why one answer is correct and the others are incorrect.

Develop your students' critical thinking skills and prepare them to perform competitively in the classroom, on state tests, and beyond. In this book, Moore and Stanley show you how to effectively instruct your students to think on higher levels, and how to assess their progress. As states implement the Common Core State Standards, teachers have been called upon to provide higher levels of rigor in their classrooms. Moore and Stanley demonstrate critical thinking as a key approach to accomplishing this goal. They explore the benefits of critical thinking and provide the tools you need to develop and monitor critical thinking skills in the classroom. Topics include: The Difference Between Higher-Level and Lower-Level Thinking Writing Higher-Level Thinking Questions Assessing Critical Thinking Strategies to Develop Higher-Level Thinking Skills
