**Crusades An Illustrated History**

Although barely over 100 pages this book manages to cover all of the salient topics for crusades taking place during the time period 1095-1291. The illustrations are well chosen and include selections from illuminated pages, modern photographs, and late medieval drawings. Most valuable is the late 19th century map of "The World of the Crusades".

"Crusades - The Illustrated History," Thomas F. Madden, Editor, shares all the strengths of Madden's "Concise History of the Crusades." It is a refreshing and positive look at the falable but devoted knights and kings of Christendom who deeply desired to see the holy sites of Christianity delivered from the hands of their unbelieving conquerors.

historical campaigns, complete with color illustrations and informational sidebars.

In 1096 five great armies left Europe to answer the call from Pope Urban II to ride to the rescue of their fellow Christians in the East, and free the Holy City of Jerusalem from the 'infidels'. After gruelling marches, bitter infighting, desperate privation and brutal battles this first 'crusade' culminated in the triumphant capture of Jerusalem and the establishment of a Christian kingdom in Palestine and Syria that survived until

## Read Online Crusades An Illustrated History

1291. The second crusade, begun in 1147 and the third, begun in 1189, were less successful but still full of the same fervour, high hopes and soaring ambition as the first. This book covers all three crusades in detail, following the journeys, events, battles and leaders of all three. The crusades were led by princes and kings who became involved for the good of their souls or earthly reputations, but they were dependent on the knights and entourages who fought for precedence and wealth almost as fiercely as they fought the enemy, and all were bolstered by the visionaries and priests who

## Read Online Crusades An Illustrated History

inspired devotion and sacrifice. These different players and their stories are all explored, as well as special sections on the fortresses they erected and the kingdoms they established. Historians argue over the character and legacy of the crusades, but what is certain is that they hold an enduring fascination for modern readers. The crusaders' enterprise retains a heroic element, a seemingly impossible objective entered into with enormous faith, self-belief and courage. However, if the crusades did have a noble and even heroic side, they also cast a deeply troubling

## Read Online Crusades An Illustrated History

shadow across the ages, and studying the causes and events of these medieval wars of faith remains highly relevant. This book discusses all aspects of these turbulent times, and evokes the colourful spirit of the period in over 300 illustrations.

An unparalleled illustrated history of the crusading knight, the lands they lost and won, and the inspiration that motivated them.

A lively reimagining of how the distant medieval world of war functioned, drawing on the objects used and made by crusaders Throughout the

## Read Online Crusades An Illustrated History

Middle Ages crusading was justified by religious ideology, but the resulting military campaigns were fueled by concrete objectives: land, resources, power, reputation. Crusaders amassed possessions of all sorts, from castles to reliquaries. Campaigns required material funds and equipment, while conquests produced bureaucracies, taxation, economic exploitation, and commercial regulation. Wealth sustained the Crusades while material objects, from weaponry and military technology to carpentry and shipping, conditioned them. This lavishly illustrated volume

## Read Online Crusades An Illustrated History

considers the material trappings of crusading wars and the objects that memorialized them, in architecture, sculpture, jewelry, painting, and manuscripts. Christopher Tyerman's incorporation of the physical and visual remains of crusading enriches our understanding of how the crusaders themselves articulated their mission, how they viewed their place in the world, and how they related to the cultures they derived from and preyed upon. A note to readers: the grey-shaded pages throughout this volume look at the Crusades in detail, exploring individual

starving army of Western European soldiers was one of the most extraordinary events of the Middle Ages. It was both the climax of a great wave of visionary Christian fervour and the beginning of what proved to be a futile and abortive attempt to implant a new European kingdom in an overwhelmingly Muslim world. The legacy of these events continues to be argued over more than nine centuries later. This remarkable collection of first-hand accounts brings to life the First Crusade in all its cruelty and strangeness.
