A luminous portrait of life in the Middle East, Day of Honey weaves history, cuisine, and firsthand reporting into a fearless, intimate exploration of everyday survival. In the fall of 2003, Annia Ciezadlo spent her honeymoon in Baghdad. Over the next six years, while living in Baghdad and Beirut, she broke bread with Shiites and Sunnis, warlords and refugees, matriarchs and mullahs. Day of Honey is her memoir of the hunger for food and friendship—a communion that feeds the soul as much as the body in times of war. Reporting from occupied Baghdad, Ciezadlo longs for normal married life. She finds it in Beirut, her husband ’ s hometown, a city slowly recovering from years of civil war. But just as the young couple settles into a new home, the bloodshed they escaped in Iraq spreads to Lebanon and reawakens the terrible specter of sectarian violence. In lucid, fiercely intelligent prose, Ciezadlo uses food and the rituals of eating to illuminate a vibrant Middle East that most Americans never see. We get to know people like Roaa, a determined young Kurdish woman who dreams of exploring the world, only to see her life under occupation become confined to the kitchen; Abu Rifaat, a Baghdad book lover who spends his days eavesdropping in the ancient city ’ s legendary caf é s; Salama al-Khafaji, a soft-spoken dentist who eludes assassins to become Iraq ’ s most popular female politician; and Umm Hassane, Ciezadlo ’ s sardonic Lebanese mother-in-law, who teaches her to cook rare family recipes—which are included in a mouthwatering appendix of Middle Eastern comfort food. As bombs destroy her new family ’ s ancestral home and militias invade her Beirut neighborhood, Ciezadlo illuminates the human cost of war with an extraordinary ability to anchor the rhythms of daily life in a larger political and historical context. From forbidden Baghdad book clubs to the oldest recipes in the world, Ciezadlo takes us inside the Middle East at a historic moment when hope and fear collide. Day of Honey is a brave and compassionate portrait of civilian life during wartime—a moving testament to the power of love and generosity to transcend the misery of war.

The author discusses her marriage to a man from Beirut, the bond she forged with her Lebanese in-laws, and how she found love, good food, and a meaningful life, despite dividing her time between wartorn Iraq and Lebanon.

An extraordinary story of a girl, her grandfather and one of nature ’ s most mysterious and beguiling creatures: the honeybee. Meredith May recalls the first time a honeybee crawled on her arm. She was five years old, her parents had recently split and

suddenly she found herself in the care of her grandfather, an eccentric beekeeper who made honey in a rusty old military bus in the yard. That first close encounter was at once terrifying and exhilarating for May, and in that moment she discovered that everything she needed to know about life and family was right before her eyes, in the secret world of bees. May turned to her grandfather and the art of beekeeping as an escape from her troubled reality. Her mother had receded into a volatile cycle of neurosis and despair and spent most days locked away in the bedroom. It was during this pivotal time in May ' s childhood that she learned to take care of herself, forged an unbreakable bond with her grandfather and opened her eyes to the magic and wisdom of nature. The bees became a guiding force in May ' s life, teaching her about family and community, loyalty and survival and the unequivocal relationship between a mother and her child. Part memoir, part beekeeping odyssey, *The Honey Bus* is an unforgettable story about finding home in the most unusual of places, and how a tiny, little-understood insect could save a life.

A New York Times Notable Book *A New York Times Book Review Editors' Choice* *A Publishers Weekly Top Ten Book of the Year* Binyavanga Wainaina tumbled through his middle-class Kenyan childhood out of kilter with the world around him. This world came to him as a chaos of loud and colorful sounds: the hair dryers at his mother's beauty parlor, black mamba bicycle bells, mechanics in Nairobi, the music of Michael Jackson—all punctuated by the infectious laughter of his brother and sister, Jimmy and Ciru. He could fall in with their patterns, but it would take him a while to carve out his own. In this vivid and compelling debut memoir, Wainaina takes us through his school days, his mother's religious period, his failed attempt to study in South Africa as a computer programmer, a moving family reunion in Uganda, and his travels around Kenya. The landscape in front of him always claims his main attention, but he also evokes the shifting political scene that unsettles his views on family, tribe, and nationhood. Throughout, reading is his refuge and his solace. And when, in 2002, a writing prize comes through, the door is opened for him to pursue the career that perhaps had been beckoning all along. A series of fascinating international reporting assignments follow. Finally he circles back to a Kenya in the throes of postelection violence and finds he is not the only one questioning the old certainties. Resolutely avoiding stereotype and cliché , Wainaina paints every scene in *One Day I Will Write About This Place* with a highly distinctive and hugely memorable brush.

“ Wonderful . . . One of the finest memoirs I ' ve read. ” — Philip Caputo, *Washington Post* In the summer of 2006, racing through Lebanon to report on the Israeli invasion, Anthony Shadid found himself in his family ' s ancestral hometown of Marjayoun. There, he discovered his great-grandfather ' s once magnificent estate in near ruins, devastated by war. One year later, Shadid returned to Marjayoun, not to chronicle the violence, but to rebuild in its wake. So begins the story of a battle-scarred home and a journalist ' s wounded spirit, and of how reconstructing the one came to fortify the other. In this bittersweet and resonant memoir, Shadid creates a mosaic of past and present, tracing the house ' s renewal alongside the history of his family ' s flight from Lebanon and resettlement in America around the turn of the twentieth century. In the process, he memorializes a lost world and provides profound insights into a shifting Middle East. This paperback edition includes an afterword by the journalist Nada Bakri, Anthony Shadid ' s wife, reflecting on his legacy. “ A poignant dedication to family, to home, and to history . . .

Breathtaking.” — San Francisco Chronicle “ Entertaining, informative, and deeply moving . . . House of Stone will stand a long time, for those fortunate enough to read it. ” — Telegraph (London)

My family are refugees from Austria. We came with two suitcases in 1954 and landed at Pier 21 in Halifax, Canada, hoping to start over. Dad's family came from Romania; mom's family from Serbia. They spoke 5 languages, and faced the fact they'd have to add English to that list, making it an even half dozen. We were given badges to pin to our coats in Bremenhaven before we boarded the S.S. Neptunia to identify ourselves as "DPs" or Displaced Persons. This was November and we knew nothing about wearing poppies on our lapels to honour Canadian soldiers who had died in the Great Wars. When Don Cherry got fired from Coach's Corner in November 2019 for calling new immigrants, "you people", urging them to buy a poppy to honour Canada's fallen soldiers for Remembrance Day, I said to myself, "This is a good time to write about my life story as a refugee." I have some things to say about my boyhood in war-torn Europe and about my new life in becoming Canadian. My story comes in two volumes: Phase One, Becoming Canadian, where I recount my experiences with systemic racism before I was accepted as a Canadian citizen and Phase Two, "Quo Vadis?" [Latin for, "Where are you going?"], which involves my experiences in jobs like teaching, photography, web design and writing, looking for that perfect fit. Despite the "rites of passage", Canada has been pretty good to our family. - John Hartig, Canadian author

Andrew Coté has one of the most intriguing, challenging, and unique jobs in New York City--maintaining millions of honey bees atop some of the city's most iconic buildings. His apiaries have crowned the Waldorf Astoria and the Museum of Modern Art; reside on the North Lawn of the United Nations; reign above stores, hotels, restaurants, schools, churches, and synagogues; and are situated in community gardens, and even cemeteries, throughout the five boroughs. Widely recognized as New York City's premier urban beekeeper, in this debut collection, Coté takes readers with him on his daily apiary adventures over the course of a year, in the city and across the globe...

The enchanting autobiography of the seven-time James Beard Award-winning cookbook author and acclaimed actress who taught America how to cook Indian food. Whether climbing the mango trees in her grandparents' orchard in Delhi or picnicking in the Himalayan foothills on meatballs stuffed with raisins and mint, tucked into freshly baked spiced pooris, Madhur Jaffrey 's life has been marked by food, and today these childhood pleasures evoke for her the tastes and textures of growing up. Following Jaffrey from India to Britain, this memoir is both an enormously appealing account of an unusual childhood and a testament to the power of food to prompt memory, vividly bringing to life a lost time and place. Also included here are recipes for more than thirty delicious dishes from Jaffrey 's childhood.

'I thought if I was going to die I should write some things down' Kirsty Everett was going to be an Olympic gymnast. But as she

made plans to win gold, life, as it does, laughed at the goal she'd set. Aged nine, she was diagnosed with leukaemia and spent the next two and a half years in treatment and attending the funerals of children she met in the cancer ward. At the age of sixteen, Kirsty's cancer returned. Faced with a devastating prognosis, she threw herself into as much as she could - friends, school, drama, sport, even a life-writing course with Patti Miller. As she said, 'I thought if I was going to die I should write some things down.' Against the odds, Kirsty survived. She never achieved gold at the Olympics, but she learned a lot about people, attitudes and resilience. This is a book about growing up different when you want to be the same; sparking hostility where there should be support; and how love can be tested to its utmost. It's wise and unflinching and hopeful, and you won't feel the same after reading it. PRAISE '[An] incredible book ... I haven't been able to stop thinking about Kirsty's journey' - Chyka Keebaugh 'Everett is a born writer, her compelling story shot through with the extraordinary sensitivities of childhood' - B+P magazine 'Honey Blood is one of the most exuberant, life-affirming memoirs I have ever read. The fact that it is about the uncompromising reality of childhood cancer, makes it all the more extraordinary. Read it and be utterly bowled over Kirsty Everett's astonishing courage, honesty and cheeky humour' - Patti Miller, author 'If the Olympic Games are designed around people achieving their personal best, commitment, courage, determination and reaching their goals, Kirsty has been to the equivalent of two Olympics' - Wayne Staunton, managing director, Sold Out events management 'Do not be afraid of this book. The big C in it is not cancer, it's Courage. The courage to deal with pain, loss, fear and the shattering of a young girl's big dreams. 'Instead of tiptoeing around the tough stuff, and leaving the most difficult bits out, Kirsty Everett dives right in, taking the reader into her world, bravely, honestly, with raw humour and grit. We get up close to her tight-knit family, boisterous friends, tender first loves, doctors both brusque and kind, and rude strangers. Death hovers on every page, but life's vitality and Kirsty's defiant spirit shove it aside. 'This refreshingly straight-talking account of adolescent leukaemia goes beyond pain to a fuller, wiser, deeper understanding of what really matters when everything you hope for hangs by a thread. It offers the best medicine for anyone who has ever faced relentless physical and mental odds and obstacles that create seemingly insurmountable roadblocks as tests of character. It may not be a cure, but it is one mighty transfusion of the powerful drugs that make us human and help us survive: hope, compassion, and love' - Caroline Baum, author 'This is a coming of age story that will shock and inspire you. Told with searing honesty Honey Blood tells the close-up story of growing up while everything is falling down. In her compassionate, funny and warm way Kirsty Everett tells her story that will inspire others to tell and live through their stories. A wonderful and truthful insight into how to survive and thrive against the odds' - Michael Anderson, Professor of Creativity and Arts Education, University of Sydney
