Aristotle's

issues of recent

scholarship.

Aristotle

addresses here

fundamental
questions of his
theory of

substance, his
idea of causes
and principles,
and his concept
of motions.

Furthermore, the
importance of
the text is due
to the fact that
it contains an

Neunzigste outline of what

was

traditionally

understood as

Aristotle's

theology.

The last and
longest war of
classical
antiquity was
fought in the

early seventh

century. It was
ideologically
charged and

fought along the
full length of
the Persian-

classical phase
of history to a
close. Despite
all this, it has
left a
conspicuous gap
in the history
of warfare. This

finally fill

that gap. The

war opened in

summer 603 when
