---

A guide to useful revision resources for the Specialty ...

Multiple Choice Questions (MCQs) are the backbone for all entrance examinations throughout the world. MCQs are used to evaluate student ' s cognitive acumen in all the fields and discipline.

Postgraduates studying dermatology -- for example for the Royal College of Physicians postgraduate specialist certificate examination in the subject -- can face a frustrating lack of appropriate revision aids. Reference books can be too exhaustive or insufficiently up-to-date to be helpful, while undergraduate and introductory texts lack the necessary detail and depth. This book is specifically designed for postgraduate examinations. Providing much more than a cheat sheet' of questions and answers, its chapters are designed to be studied in sequence, each building on the last to develop a strong overall understanding. Common and introductory topics are briefly discussed and an understanding of basic dermatology is assumed, with MCQs (multiple choice questions) following the widespread best of five' format.

Postgraduates studying dermatology can face a lack of appropriate revision aids: reference books are often too exhaustive or out-of-date, while undergraduate and introductory texts lack the necessary detail and depth. This book is specifically designed for postgraduate examinations, and is the perfect accompaniment for the diploma in dermatology.

Part of the Masterpass series, this highly authoritative guide covers all the required topics, with emphasis on important areas ensuring candidates are thoroughly tested. MCQs in Geriatric Medicine for Postgraduate Examinations is ideal for postgraduate doctors wanting to succeed in elderly medicine biased MCQs such as candidates for the Diploma in Geriatric Medicine and registrars in geriatric medicine reading for their specialty certificates. It is also highly recommended for Part I MRCP candidates requiring a grasp of this rapidly increasing branch of medicine in terms of information, number of patients and cost to the state. The overall proportions of topics are suggested by the Royal College of Physicians, London but I have added more questions proportional to the importance of some topics. When you have cracked all 350, you will have the MCQ examiners on toast. Roger Gabriel, in the Preface.

A fully-illustrated, note-packed volume of information, Dermatology: Illustrated Study Guide and Comprehensive Board Review fulfills a real need for a single study guide for the Dermatology Board Exam. Written by a previous Chief Resident of

Dermatology at the University of Illinois at Chicago Medical Center, the text focuses on presenting comprehensive information in an easy-to-understand, easy-to-remember format. Tips, tricks, short lists, and tables fill every inch of this book—a must-have for any dermatology resident. Features: Acts as a concise go-to review book for the Dermatology Board Exam Hundreds of author notes pinpointing important information presented in an easy-to-read format Scores of mnemonics and memory tricks to mentally organize information Over 500 high-quality images placed parallel to the represented skin disorder Life after Boards—essential tips on coding and documentation

What do you need to do before sitting the written component of the FRCS (Tr and Orth) examination? Practice, practice, practice. Sadly the MCQs and EMQs in the actual examination are not this straightforward. This book will help the orthopaedic surgeon preparing for the written part of the examination to be ready to face the task ahead. The MCQs and EMQs appear in the same format as the examination and cover the syllabus topics. Divided into subspecialty chapters, including trauma and basic science, this book is ideal for use alongside a revision plan. The questions have detailed answers and selected references, arming readers with the knowledge they need to approach the topic correctly. Written by recent, successful examination candidates, this question-and-answer-based revision guide is ideal preparation for the FRCS (Tr and Orth) examination as well as being helpful for other postgraduate orthopaedic exams.

Ear, Nose and Throat (ENT) surgery has traditionally been a difficult and specialised topic in undergraduate medicine and for junior doctors. Many textbooks are too detailed for undergraduate use, or lack self assessment questions to help those wishing to underpin their learning. This concise and easy-to-read self-assessment guide aims to clarify the topic, and find and fill gaps in understanding. The multiple choice questions (MCQs) contained cover all levels of knowledge and the learning objectives of most of the UK medical school curricula, aiding preparation for end of unit, module and final exams for ENT. This book will be a valuable companion for clinics and teaching sessions and an indispensable revision primer for graduate entry medical curricula. 'An excellent means of preparation for medical undergraduate examinations as gaps in core knowledge are quickly revealed. Further, this text is a good guide for students to identify those subject areas requiring more focused study, especially when time is short.' - From the Foreword by Samir Soma

What are the indications for necrosectomy? How you perform an EUA for acute perianal sepsis? What do you understand by the term Early Goal-Directed Therapy (EGDT)? Remember: this is a consultant's exam, and giving a range of options is not good enough. You must tell the examiner what you as a consultant are going to do. The FRCS is a uniquely challenging prospect; highly detailed, wide-ranging and encompassing both theory and practice. Preparation for this exam can be very difficult, and resources tailored to it are scarce. As the consolidated notes of a recent

successful candidate, this book is an essential resource when preparing for the viva. The wide variety of questions require you to define, diagnose or choose between treatment options, while MCQs and SBAs help you to objectively evaluate your progress - a unique supplement to your study plan. Answers provided are comprised of an invaluable combination of detailed written answers and lists that will remind you of key points and help you structure your preparation.

A sound knowledge of basic sciences is vital for any doctor with an interest in ophthalmology, and is a significant part of all postgraduate examinations in the subject. Featuring 640 multiple choice questions, this is a comprehensive revision guide for candidates taking the basic sciences component of the FRCOphth and ICO examinations. It is highl
